

To all users of the Shonan Fujisawa Campus (faculty, staff members, students, and visitors)

June 11, 2021

**Faculty of Policy Management/Faculty of Environment and Information
Studies/Graduate School of Media and Governance
AY 2021**

Basic Policy for Maintaining Education and Research Activities

Motohiro Tsuchiya, Dean of the Faculty of Policy Management
Akira Wakita, Dean of the Faculty of Environment and Information Studies
Fumitoshi Kato, Dean of the Graduate School of Media and Governance
Toshiko Hirota, Administrative Director of the Shonan Fujisawa Campus

The Faculty of Policy Management, Faculty of Environment and Information Studies, and Graduate School of Media and Governance will lower activity restrictions for the Shonan Fujisawa Campus from Level 3 to Level 2 from June 21 onward. However, it is necessary for us to continue to exercise vigilance in thoroughly implementing measures against infection when conducting education and research activities. Based on this, we will practice cutting-edge education and research activities while fulfilling our social obligation to sustain the mental and physical health of students, faculty, and staff members as well as limiting new cases of infection so as not to place an excessive burden on the local healthcare system. To this end, please comply with the following procedures and policies and actively contribute to the safety of the campus so as to avoid potentially contributing to the spread of infection on campus.

I. Activities restriction level

- (1) We will lower activity restrictions for the campus from Level 3 to Level 2 on June 21 from 12:00 a.m. onward.
- (2) We plan to announce the activities policy for the 2021 Fall Semester (starting October 1, 2021) by early September 2021.
- (3) Please cooperate in staggering your commute to campus. Information on distributed boarding with off-peak hours for the Shonandai-Keio University section are available on [【Important Notice】Response measures to COVID-19 | 慶應義塾大学 湘南藤沢キャンパス\(SFC\) \(keio.ac.jp\)](#).

II. Policies for monitoring entry to the campus

- (1) We will continue to monitor entry to the campus, as we have done to date.

- (2) We are conducting body temperature checks at the gate established for this purpose and located between the Omega Building and Alpha Building. Those entering the university campus are requested to first pass through this gate regardless of their transportation method or where they first enter the campus. It may take some time to enter the campus, so we ask that you give yourself plenty of time when coming to the university. This is to ensure that we carry out education and research activities on campus safely. It is also a means to ensure everyone's security.
- (3) For details regarding monitoring entry to the campus, please access the website below:
⇒ [\[Bus Services and Changes in Monitoring Entry to Campus\]](#)

III. Policies related to education and research

- (1) As detailed in [“Notice of class formats in the Spring Semester of the 2021 academic year”](#) which was shared on the Keio University Student Website on March 3, classes in the Spring Semester of the 2021 academic year will be held in hybrid formats, mixing face-to-face classes on campus and online sessions. (Classes that were scheduled to be held on-campus can be moved back to on-campus from June 21 onward.) Furthermore, please check [“COVID-19 measures: Guidelines for using classrooms”](#) when attending classes on campus.
- (2) When conducting education and research activities on campus, the number of people permitted to use a facility such as a classroom or research room should be half or less of the capacity for the room under normal circumstances.
- (3) For research activities outside the campus, please conduct these in accordance with [“Information on Research Activities Financed by External Funds, etc., that are associated with the Keio Research Institute at SFC \(June 11, 2021\).”](#)
- (4) For research activities that are financed by external funds, etc., please check the [“Information on Research Activities Financed by External Funds, etc., that are associated with the Keio Research Institute at SFC \(June 11, 2021\).”](#)
- (5) For extracurricular activities etc., please check ["Keio's measures against the Pneumonia Associated with the 2019 Novel Coronavirus for students"](#) on the Keio University Student Website.

IV. Facility management and usage policies

- (1) While on campus, please follow the three principles (avoid closed spaces, crowded places, and close-contact settings) to prevent the spread of infections, be diligent about washing your hands, ventilating rooms, and wearing masks, and strictly observe the usage rules

posted at each facility. Furthermore, disinfectant sprays or similar should be used to disinfect desks, doorknobs, etc.

- (2) Laboratories, the Media Center, and other on-campus facilities each have their usage policies. Please access the following website to review the policies and comply with these when using these facilities.
⇒ [\[COVID-19\] Usage Guidelines for Facilities at SFC](#) (keio.jp authentication required)
Regarding usage policies for other facilities, please refer to the policies described on the website below and take thorough precautions for the prevention of infections.
⇒ [\[COVID-19\] Usage Guidelines for Facilities at SFC](#) (keio.jp authentication required)
- (3) Eating in classrooms is prohibited. When taking meals on campus, students should use the on-site restaurants at which epidemic prevention measures have been taken. When taking meals on campus, students should use the on-site restaurants at which epidemic prevention measures have been taken. The on-campus restaurants (Co-op Cafeteria, Tablier, Ladybird, Subway) are currently operating on shortened business hours. For details on the business hours, please check the Keio University Student Website.
- (4) If you feel even remotely unwell while on campus, please return home as quickly as possible.
- (5) “*Yakan Zanryu* (Overnight Study)” on campus is prohibited.

V. Policies related to the Media Center (Library)

- (1) Students, faculty, and staff members can use the Media Center (Library) in the same way as in a standard semester. However, please observe the measures to prevent infections at the Media Center, on campus, and while on your way.
- (2) In addition, measures will be taken in order to prevent infection such as changing opening hours or requiring reservations for some services, with some facilities also unavailable for use. When using the Media Center, please check their website prior to your visit.

VI. What to do if you are infected or suspect you may be so

- (1) Due to the nature of COVID-19, executive officers of the Faculty of Policy Management, Faculty of Environment and Information Studies, and Graduate School of Media and Governance must promptly grasp the information regarding infected persons and decide how to respond to the situation. Please comply with the policy described below:
 - ① Please take your temperature every day and monitor whether you have any symptoms such as a fever of 37.5°C or higher, cough, fatigue, shortness of breath, or any irregularities in sense of taste or smell.

- ② If you or the family members you live with have the above symptoms, please refrain from leaving the house, including going to the campus.
- (2) If you happen to fall under (1) ② above or become infected with COVID-19, please immediately access the URL for the Keio University Health Center below and report your condition through the website (please make a report even if you do not intend to come to campus).
- (<http://www.hcc.keio.ac.jp/en/infection/coronavirus.html>)
- (3) It may become necessary for you to check days you entered the campus or where you had visited, so please be conscious about recording your movements on a regular basis.

Materials 1: Guide to coming to campus (keio.jp authentication required)

Materials 2: What to do when an emergency occurs while on campus (keio.jp authentication required)

VII. Important reminders regarding words and actions that may promote hatred, prejudice, and discrimination toward infected persons

- (1) At present, each one of us is required to be responsible for our actions while being careful “not to get infected and not to infect others.”
- (2) In order to prevent the spread of COVID-19, it is important to have a vigilant attitude towards potential infection and do everything we can to avoid becoming infected. As a result, however, we are experiencing increased susceptibility to anxiety and fear that is in excess of what the situation warrants. Please do not forget that, as a form of self-defense, a feeling of disgust or a wish to exclude may develop toward people who are suspected of or are suffering from an infection, which may lead to discriminatory sentiments which subsequently escalate to unfeeling words and actions. Infectious diseases of various kinds, not confined to COVID-19, are an ongoing feature of our world, with no reflection on the history of mankind needed to realize this fact. Any one of us could potentially become infected by such diseases. Cognizance of this fact will enable you to remain conscious of any negative sentiments you may be harboring towards infected persons.
- (3) We must think of those people who, despite endeavoring to prevent the spread of infections, have succumbed to COVID-19, as being in the same position as the victims of a disaster. Their plight requires warm consideration and support.
- (4) You may hurt those who are involved or unintentionally violate their human rights, through actions such as gossiping carelessly about infected individuals or posting comments on SNS. Furthermore, it should be noted that, as with other disasters, those with a history of illness or disability or who are socially vulnerable are put at higher risk of getting infected.

They are also profoundly affected by the disease and thus require extra support.

- (5) Having unwarranted fear, unreasonable anger, or prejudice toward people who have been unfortunate enough to succumb to infection, or carrying out acts that are discriminatory, slanderous, defamatory, or associated with bullying against them is completely unacceptable on our campus. In order to prevent the rise of prejudice, discrimination, violations of human rights, and other negative attitudes that fragment the SFC community, we should pay attention to our words and actions as well as those of others around us, share our worries, and together build a campus where consideration and compassion spread peacefully.

Table 1 Education and Research Restriction Guidelines to Prevent the Spread of COVID-19 (coronavirus disease)

Level	Education Activities (Lectures, etc.)	Research Activities	Faculty Members Entering Campus	Students Entering Campus	Student Extracurricular Activities	Internal Meetings	Maximum Percentage of People that may Occupy Operating Facilities	Facilities that may Operate	General Information	Decision Criteria
