

To all users of the Shonan Fujisawa Campus (faculty, staff members, students, and visitors)

April 21, 2021

**Faculty of Policy Management/Faculty of Environment and Information
Studies/Graduate School of Media and Governance
AY 2021**

Basic Policy for Maintaining Education and Research Activities

Motohiro Tsuchiya, Dean of the Faculty of Policy Management
Akira Wakita, Dean of the Faculty of Environment and Information Studies
Fumitoshi Kato, Dean of the Graduate School of Media and Governance
Toshiko Hirota, Administrative Director of the Shonan Fujisawa Campus

In response to the outbreak of COVID-19 (coronavirus disease) infections at Keio University on April 19, 2021, the Faculty of Policy Management, the Faculty of Environment and Information Studies, and the Graduate School of Media and Governance have raised the activity restrictions for the Shonan Fujisawa Campus from Level 2 to Level 3, from April 21, as frequent incidences of infection among parties related to the campus are presumed to occur. (refer to Table 1).

In order to fulfill our social obligation to avoid further outbreaks of infections and limit new cases of infection so as not to place an excessive burden on the local healthcare system, we must further strengthen measures to prevent infections. Please keep in mind that the Student Affairs Center has made the following requests to Keio students.

- Please fully cooperate with refraining from group meals! Keio University Student Affairs Center (April 20, 2021)
- Response to COVID-19 (coronavirus disease) Keio University Student Affairs Center (July 31, 2020)

When activity restrictions of the campus are set to Level 3, we request your cooperation in observing the following restrictions.

I. Monitoring entry to the campus

- (1) We will continue to monitor entry to the campus, as we have done to date.
- (2) We are conducting body temperature checks at the gate established for this purpose and located between the Omega Building and Alpha Building. Those entering the university campus are requested to first pass through this gate regardless of their transportation method or where they first enter the campus. It may take some time to enter the campus, so we ask that you give yourself plenty of time when coming to the university. This is to

ensure that we carry out “education and research activities on campus” safely. It is also a means to ensure everyone’s security.

- (3) For details regarding monitoring entry to the campus, please access the website below:

⇒ [\[Bus Services and Changes in Monitoring Entry to Campus\]](#)

II. Entry to SFC

- (1) Both faculty and students are allowed to enter the campus. However, the student’s purpose of such entry should be limited to research activities and kept to a minimum.
- (2) Those entering the university campus are requested to first get their body temperature checked at the gate established for this purpose, located between the Omega Building and Alpha Building, regardless of their transportation method or where they first enter the campus.
- (3) “Yakan Zanryu (Overnight Study)” on campus is prohibited.

III. Educational Activities on Campus (Class Format)

All classes be switched to online by April 30.

IV. Research Activities on Campus

- (1) Both faculty and students are allowed to enter the campus. However, such activities should be **kept to a minimum**.
- (2) For research activities that are financed by external funds, etc., please review “Information on Research Activities Financed by External Funds, etc., that are Associated with the Keio Research Institute at SFC.”

V. Off-campus Research Activities

- (1) For off-campus research activities that involve students, the number of participants should be limited to a maximum of 10 or less, and sufficient measures to prevent infections, including contact tracing, should be implemented.
- (2) For research activities that are financed by external funds, etc., please review “Information on Research Activities Financed by External Funds, etc., that are Associated with the Keio Research Institute at SFC.”

VI. Media Center (Library)

- (1) The Media Center will continue to open with shortened operational hours, premised on the maintenance of the current measures to prevent the spread of infections.

VII. Student Extracurricular Activities

- (1) We strongly request that you refrain from conducting all face-to-face activities. However, permission to hold activities will be considered by application if it is absolutely necessary for extracurricular activities other than those conducted online to go ahead. Please thoroughly check Keio's response measures to COVID-19 (For Students) on the Keio University Student Website and apply according to the prescribed procedures.

VIII. Internal meetings

- (1) Internal meetings are to be conducted online.

IX. Facility management and usage policies

- (1) When activity restrictions of the campus are set to Level 3, on-campus activities should be limited to the minimum necessary research activities (including the use of the Media Center).
- (2) To reiterate, the following are the usage policies that need to be followed when using facilities on campus.
 - While on campus, please be diligent about washing your hands, ventilating rooms, and wearing masks. Furthermore, disinfectant spray or similar should be used to disinfect desks, doorknobs, etc. Please follow the three principles (avoid closed spaces, crowded places, and close-contact settings) to prevent the spread of infections.
 - Laboratories, the Media Center, and other on-campus facilities each have their own usage policies. Please access the following website to review the policies and comply with these when using these facilities. Regarding usage policies for other facilities, please refer to the policies described on the website below and take thorough precautions for prevention of infections.
 - ◇ ⇒ [COVID-19] Usage Guidelines for Facilities at SFC (keio.jp authentication)
 - Eating in classrooms is prohibited. Students who would like to eat while on campus should use the on-site restaurants or the classrooms set aside for this purpose. Please strictly observe the usage rules, such as refraining from talking while eating, posted in each dining space. The on-campus restaurants (Co-op Cafeteria, Tablier, Ladybird, Subway) are currently operating on shortened business hours. For details on the business hours, please check the Keio University Student Website.
 - “Yakan Zanryu (Overnight Study)” on campus is prohibited.
 - If you feel even remotely unwell while on campus, please return home as quickly as possible.

X. What to do if you are infected or suspect you may be so

- (1) Due to the nature of COVID-19, executive officers of the Faculty of Policy Management, Faculty of Environment and Information Studies, and Graduate School of Media and

Governance must promptly grasp the information regarding infected persons and decide how to respond to the situation. Please comply with the policy described below:

- ① Please take your temperature every day and monitor whether you have any symptoms such as a fever of 37.5°C or higher, cough, fatigue, shortness of breath, or any irregularities in sense of taste or smell.
 - ② If you or the family members you live with have the above symptoms, please refrain from leaving the house, including to go to the campus.
- (2) If you happen to fall under (1) ② above or become infected with COVID-19, please immediately access the URL for the Keio University Health Center below and report your condition through the website (please make a report even if you do not intend to come to campus).
- <http://www.hcc.keio.ac.jp/en/infection/coronavirus.html>
- (3) It may become necessary for you to check days you entered the campus or where you had visited, so please be conscious about recording your movements on a regular basis.

Materials 1: [Guide to Coming to Campus](#) (keio.jp authentication)

Materials 2: [What to Do when an Emergency Occurs while on Campus](#) (keio.jp authentication)

XI. Important reminders regarding words and actions that may promote hatred, prejudice, and discrimination toward infected persons

- (1) At present, each one of us is required to be responsible for our own actions while being careful “not to get infected and not to infect others.”
- (2) In order to prevent the spread of COVID-19, it is important to have a vigilant attitude towards potential infection and do everything we can to avoid becoming infected. As a result, however, we are experiencing increased susceptibility to anxiety and fear that is in excess of what the situation warrants. Please do not forget that, as a form of self-defense, a feeling of disgust or a wish to exclude may develop toward people who are suspected of or are suffering from an infection, which may lead to discriminatory sentiments which subsequently escalate to unfeeling words and actions. Infectious diseases of various kinds, not confined to COVID-19, are an ongoing feature of our world, with no reflection on the history of mankind needed to realize this fact. Any one of us could potentially become infected by such diseases. Cognizance of this fact will enable you to remain conscious of any negative sentiments you may be harboring towards infected persons.
- (3) We must think of those people who, despite endeavoring to prevent the spread of infections, have succumbed to COVID-19, as being in the same position as the victims of a disaster. Their plight requires warm consideration and support.
- (4) You may hurt those who are involved or unintentionally violate their human rights, through actions such as gossiping carelessly about infected individuals or posting comments on

SNS. Furthermore, it should be noted that, as with other disasters, those with a history of illness or disability or who are socially vulnerable are put at higher risk of getting infected. They are also profoundly affected by the disease and thus require extra support.

- (5) Having unwarranted fear, unreasonable anger, or prejudice toward people who have been unfortunate enough to succumb to infection, or carrying out acts that are discriminatory, slanderous, defamatory, or associated with bullying against them is completely unacceptable on our campus. In order to prevent the rise of prejudice, discrimination, violations of human rights, and other negative attitudes that fragment the SFC community, we should pay attention to our words and actions as well as those of others around us, share our worries, and together build a campus where consideration and compassion spread peacefully.

Table 1 Education and Research Restriction Guidelines to Prevent the Spread of COVID-19 (coronavirus disease)

Level	Education Activities (Lectures, etc.)	Research Activities	Faculty Members Entering Campus	Students Entering Campus	Student Extracurricular Activities	Internal Meetings	Maximum Percentage of People that may Occupy Operating Facilities	Facilities that may Operate	General Information	Decision Criteria
