Chapter 1

Before Coming to Japan

1 Before Coming to Japan

The purpose of this chapter is to help you to prepare to come to Japan as an international student at Keio University Shonan Fujisawa Campus (SFC).

You will learn all about what to do before you leave your home country and what to do from your arrival at the airport.

1-1 Welcome to Keio University SFC!

SFC (Keio University Shonan Fujisawa Campus)

Keio University has a proud history as Japan's first private institution of higher learning. In 1858, renowned scholar Yukichi Fukuzawa opened a school for Dutch learning in Edo (present-day Tokyo), then shifted to focusing on English.

SFC is the fifth university campus, opened in 1990 on the north side of Fujisawa City in Kanagawa prefecture.

1-2 Welcome to Shonan, Fujisawa!

湘南 (Shōnan)

Shonan

What is Shonan Fujisawa like?

Shonan is the nickname of the region along the coast of Sagami Bay, known as a popular summer resort area with a relaxed atmosphere.

藤沢市 (Fujisawa-shi)

Fujisawa-city

Blessed with a natural environment, Fujisawa-city is conveniently located only 50 minutes from Tokyo.

The climate is rather warm, with little snow (it snows once or twice a year), and its temperatures vary from 3°C to 30°C throughout the year.

1-3 Visa

CoE (Certificate of Eligibility)

All foreign nationals entering and staying in Japan are given a status of residence at their port of entry. International students are expected to have a status of residence as "Student". If you do not have the appropriate status of residence, you may not be able to enroll.

To apply for a Student visa, it is required to obtain a Certificate of Eligibility [CoE]. It is **a digital document** that certifies that you are an eligible person to enter Japan as a student.

Keio University will apply for the CoE on behalf of international students residing outside Japan.

Procedure

Apply for a CoE

Following the instruction sent from Keio University, fill out the CoE application form and upload it along with your ID photo and other necessary documents to the designated website.

Receive your CoE

Once your electric CoE is issued from a regional immigration bureau in Japan (it usually takes 2-3 months), Keio university will send it to you as an email attachment.

Apply for a student visa

Make an appointment at your local Japanese Embassy/Consulate and take your smartphone to show your electric CoE and other required documents.

*Please note that a CoE is only valid for 3 months after it is issued.

What to bring to the Japanese Embassy

- ☐ Smartphone to show your digital CoE
- ☐ Completed visa application form
- ☐ ID photo
- ☐ Passport
- Other necessary documents (if necessary)

資格外活動の許可
(shikaku gai katsudo no
kyoka) Permission
to engage in activity
other than that
permitted under the
status of residence
previously granted

To obtain a permit for a part-time job

Students who hold a "Student" status of residence are allowed to stay in Japan only for study and research purposes. Therefore, you are not allowed to work. If you wish to engage in secondary activities aside from your studies, such as a part-time job, you must apply for "Permission to engage in activity other than that permitted under the status of residence previously granted" (資格外活動の許可 *shikaku gai katsudo no kyoka*)

With this work permission, students are allowed to work for up to 28 hours a week (up to 8 hours a day during the summer, winter and spring break) as long as the work is not deemed to be socially immoral.

How to apply

You will receive the application form for this permit together with your digital CoE by email from our Admission Office.

Fill out the application form and submit it at Immigration at your port of entry upon arrival in Japan. Permission to engage in an activity other than that permitted under the status of residence will be given at the airport accordingly.

Bringing your family to Japan

Please consult with the Japanese Embassy/Consulate in your home country, as Keio University does not support family visas.

For more
details
about **work
permission**,
please refer
to **5-2**.

1-4 Money

Japan is predominantly a cash-based society especially in rural areas.

We recommend you bring the equivalent of ~300,000 JPY in cash with you even if you are a scholarship student as scholarship payment usually takes 4 to 6 weeks to start.

Currency

The currency in Japan is the yen (円, *en*) and is denoted with the symbol ¥.

Bills come in 1,000 yen, 2,000 yen (rare), 5,000 yen and 10,000 yen denominations. Coins come in 1 yen, 5 yen, 10 yen, 50 yen, 100 yen and 500 yen denominations.

円 (*en*) Yen

Consumption tax

The current consumption tax rate is 10% nationwide (8% for take-out). All the price tags include the consumption tax.

消費税 (*shouhi-zei*)

Consumption tax

Tipping

Tipping is not customary in Japan. In fact, it can be considered rude in many situations. If you leave the money at a restaurant table, they will run after you to return the "forgotten" money.

Payment methods

現金 (*genkin*) Cash

Cash:

We recommend you carry cash in your wallet, around ~3,000JPY for daily life, and ~10,000JPY for your first visiting day.

IC cards:

An IC card is a prepaid transportation card which can be used on most Japanese public transportation and also at many vending machines, shops and restaurants by simply touching the card on a

reader. You can charge them with cash at most of the train stations.

You can obtain an IC card at a train station only with cash. (You don't need to have a bank account or a credit card.) You need to pay 500 JPY as a deposit when you get the card for the first time.

In the Tokyo metropolitan area, the **SUICA card** is the most commonly used IC card.

クレジットカード

kurejitto kaado
credit card

Credit Cards:

If you are going to use your own credit card(s) issued in your home country, please check with the credit card company if the card(s) can be used in Japan.

The most commonly accepted cards are MasterCard, Visa, JCB, and American Express.

デビットカード

debitto kaado
debit card

Debit Cards:

A debit card can be difficult to obtain for international students as debit cards are issued through credit card companies such as VISA or MasterCard in combination with your bank.

スマホ決済

sumaho kessai
mobile payment

Mobile payment Apps (QR Code-based):

You can make payments by scanning the QR code displayed or showing the barcode on your smartphone app to be scanned. Once you get a mobile phone and a bank account, you can install those apps.

1-5 Travel Arrangement

☐ **Passport**

Apply for a passport if you haven't got one.

☐ **Airline Ticket**

You must book your own airline ticket.

The closest international airports are

- Narita International Airport (approx. 3 hours to SFC)
- Haneda Airport/Tokyo International Airport (approx. 1 hour to SFC)

☐ **Travel Insurance**

This is not mandatory, but travel insurance is strongly recommended for the first few weeks until joining the National Health Insurance plan with your residential registration.

☐ **Trains**

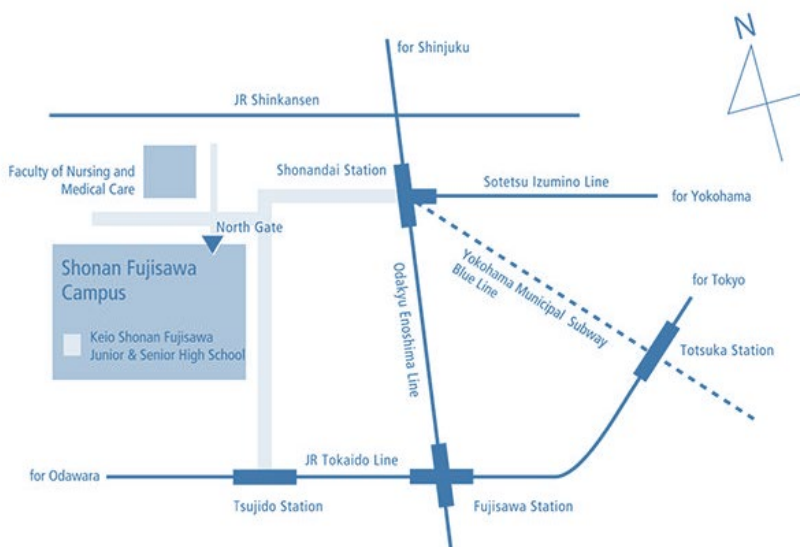

Check access from your port of entry to your final destination.

Access from Airports

Shuttle bus services are also available to most major locations within the Tokyo area. Visit each airport's website for details.

Access to SFC from the nearest train stations

From **Shonandai** station: 15 minutes by bus

From **Tsujido** station: 25 minutes by bus

Please see **8-4** for more details.

1-6 Necessary Documents

The following documents will be required after your arrival. However, we recommend you prepare them while you are in your home country.

Also, please make photocopies of your passport and your visa documents, prepare extra ID photos (4cm X 3cm), and check the contact number for your embassy in Japan.

Joint Guarantor (Refer to **2-3** for more details)

“Joint guarantor” is a co-signer who takes legal responsibility in case a student defaults on payment of rent, or damages are incurred to an apartment. They must be over 20 years of age and be a Japanese citizen with regular income. They must also be able to prove that the rent is not above 30% of what they earn.

You need to find a joint guarantor in order to rent an apartment before you arrive in Japan. Make sure to get their contact details and signature to submit to the realtors.

Comprehensive Renter’s Insurance by Keio

If a guarantor cannot be found, it is possible for Keio University to co-sign the lease for your period of study at Keio University.

For details of this system, refer to **2-3**.

Necessary Documents for Financial Aid

Prepare documents to certify the income of your parent(s)/spouse and financial supporters.

- Documents for all of your supporters, including your parent(s)/spouse. If your parent(s)/spouse do not earn any income, please state it in the Financial Supporter Report (prescribed form).

Documents to be prepared before coming to Japan

Center)

<https://www.ic.keio.ac.jp/en/life/scholarship/application.html>

- If your parent(s) (or spouse) or financial supporters reside outside of Japan, they should submit a copy of documents that certify their income. An English or Japanese translation must be attached to the documents written in other languages than mentioned above. You can also write English or Japanese translations directly onto the documents (the name of the document, year, amount of income, income period, name of the recipient and date of issuance must be translated).

Please refer to the Keio University International Center's webpage as on the left for all the required documents and guidelines for scholarship application registration.

1-7 Medical

Visit your doctor

We advise you to visit a doctor for a physical examination before coming to Japan. Bring along a copy of your medical records in English in case of an emergency or if you are suffering from a chronic illness.

Prescription medications

The importing of medicines from overseas is subject to control by the Pharmaceutical Affairs Law and the Customs Law to prevent health hazards caused by defective products.

You can bring your personal medicines into Japan once certain procedures are completed. When bringing your personal medicines into Japan, you have to apply for an **"Import Confirmation Application Form"** ("*Yunyu Kakunin-sho*" in Japanese/輸入確認書), and receive it before you leave your home country, and declare it to the officer at customs.

See the Ministry of Health, Labour and Welfare website as shown on the left.

You can find the **"Q & A form"** and **"Import Confirmation Application Form"** on the page.

1-8 Packing

Pack smart

While most things are readily available in Japan, some items may be more expensive, inconvenient to purchase, or difficult to be mailed internationally, so you may wish to bring particular items with you from your home country.

Recommendations include:

Clothes:

Temperatures in the Kanto region can range from about 10°F (around 1~2°C) in the winter to 100°F (around 35°C) in the summer. For this reason, a wide range of clothing sufficient for the entire year is necessary.

Do not forget to pack formal clothes like black suits which are suitable for ceremonial occasions.

If you prefer larger-sized clothing, we advise that you bring them from your home country as it is not easy to obtain those sizes in Japan. Japanese "L" size is maybe a "M" size in some countries.

Also, if your shoe size is bigger than 28cm for men, 25cm for women, it may be difficult to find shoes in Japan.

*Recently, more varieties of sizes are available online.

Over-the-counter medicines:

Some over-the counter medicines (OTC), an equivalent amount of vitamins and contact lenses for a two-month (60 day) supply are allowed to be carried into Japan.

Back-up glasses/contact lenses

You can buy both of these items in Japan, but you need to visit a doctor to get a prescription to purchase contact lenses. Back-up lenses will be useful for emergencies.

Electric adaptors and voltage converters

Also refer to **2-6**

US PLUG(100-110V)

Japan operates on a 100V supply voltage at 50/60 Hz. The socket type is Type A (two-pronged like the U.S).

SIM / Wi-fi router

As Japan does not have many free Wi-fi spots, you will need to make a contract with a phone company once you are settled in Japan. Until then, you can use a short-term pre-paid SIM or a portable Wi-fi router. You can pick one up at the airport on your arrival.

Hand-carried baggage

- ☐ Cash (a credit card and a cash card if possible)
- ☐ Flight tickets
- ☐ Passport
- ☐ Smartphone to show your CoE
- ☐ Travel insurance certificate (if any)
- ☐ A pen
- ☐ Contact list (Contact information of your embassy in Japan, Keio University, your guarantor, and your accommodation)

Prohibited articles

Please check the Japan Customs page as shown on the left.

1-9 Culture and Language

Inform yourself about Japan

Take some time to better familiarize yourself with Japan. Knowing your soon-to-be home's culture, history, geography, economy, government, etc. can improve your experience in Japan and your time spent in the country will be more rewarding. Talk to others who have been to Japan and seek opportunities to watch movies and read more about the country and its culture.

It is recommended you learn basic Japanese greetings and the two main written scripts (hiragana and katakana). It will make your life in Japan much easier. (reading menus, etc.). Note that not many people can speak English well especially outside of Tokyo.

Please review the beginner's Japanese learning webpages of the Japan Foundation.

Also make sure to familiarize yourself with all the admission guide information from Keio SFC.

Housing

2 Housing

There are three common choices for accommodation for international students – dormitories, apartments, and shared houses. In this chapter, you will learn about those three types of accommodations and gain knowledge about the Japanese housing system.

2-1 Keio University Dormitories

Keio University is expanding its student dormitories to provide more active support to students from outside of the Kanto area and overseas in terms of enrollment and support for students living in the dormitories.

There are two student dormitories near SFC: **Shonan Fujisawa International Dormitory (SID)** and **H Village**.

Shonan Fujisawa International Dormitory

<https://www.n-jisho.co.jp/shonanfujisawa/>

*Japanese language only

Shonan Fujisawa International Dormitory (SID)

湘南藤沢国際学生寮 (*Shonan Fujisawa Kokusai Gakusei Ryo*)

Opened in 2021. This is the first dormitory for the exclusive use of Keio students at Shonan Fujisawa Campus. A mixed dormitory with morning and evening meals provided and plenty of space for students to interact with each other.

H (eta) Village

H Village is our only on-campus international student dormitory both for undergraduate and graduate students opened in the spring of 2023.

Five students, including both domestic and international, will be placed in one unit, fostering global exchange among students with diverse values who come from all over Japan and the world as they study and live together.

The building consists of a common building and four residential buildings, with 1 for men only and 1 for women only, and the other 2 for both men and women, to meet the diverse needs of the students.

This international student dormitory will put into practice the new lifestyle of "living while learning, and learning while living."

2-3 Private Apartments

Apartments

To rent apartments, you will need to go through a lengthy process with a real estate company by yourself. Also, most rooms are not furnished.

Though, if you are looking for accommodation with complete privacy and an independent lifestyle, this might be a good choice for you.

Japanese accommodation is known to be costly, especially around big cities. It is common for students to live far away from unaffordable business districts. Even around the SFC area, the rent tends to get higher in popular areas such as near train stations.

Basic Knowledge of How to Rent an Apartment

Renting Japanese apartments has some unique systems. Please learn the following knowledge and housing terminology before contacting a real estate company.

Initial Costs

In addition to monthly rent, the following fees will be required to be paid upon initiation of the lease.

- *Shikikin* or deposit is required for most apartment lease contracts and is usually equal to one or two months' rent. Your landlord is required to return your deposit to you when you vacate the property, after deducting any cleaning costs and damages beyond normal wear and tear.
- *Reikin* or gratuity money (often called key money) is a refundable payment to your landlord. It is often the same price as *Shikikin*. (equal to one or two months' rent)
- An agent fee is paid to the real estate company as a commission. It is often about one month's rent.

In total, you might need to prepare at least six months' rent upfront to get settled into an apartment in the first place.

The rent market price of the monthly rent fee for a student-size-apartment in the SFC area is approximately ~70,000 JPY

House Terminology

敷金 (*Shiki-kin*)
rental deposit

礼金 (*Rei-kin*)
gratuity money/key money

TIPS...It will be useful to take photos of your room before moving in. They will be proofs of whether damages to the room were made by you or not, to get more of your *shikikin* back later.

Joint Guarantor

When renting an apartment in Japan, you will be asked to provide the contact details and signature of a joint guarantor (連帯保証人, *Rentai Hoshounin*). A joint guarantor is a co-signer who takes legal responsibility in case the tenant defaults on payment of rent or damages. They must be over 20 years of age and a Japanese citizen with a regular income (they must be able to prove that the rent is not above 30% of what they earn). Being a guarantor is a huge responsibility. Arranging a guarantor is perhaps the most difficult part of the housing process.

Comprehensive Renter's Insurance by Keio

留学生住宅総合保障制度 ("*Ryuhosho*")

If a guarantor cannot be found, it is possible for Keio University to cosign the lease for the period of your study here at Keio University. However, roommates are limited to family members and other international students of Keio. Also, you should not have any history on late rent payment. Depending on the conditions, there are possibilities that your application be rejected. Please note that we do not accept applications from overseas as an interview with the applicant is required in the screening process.

When signing contracts of any sort in Japan, be sure to **read the contract carefully and understand it fully**. Contracts are legal documents, which should be signed with full understanding. Signing contracts without a complete understanding of the contents may result in unexpected and severe consequences. If you have any trouble understanding the contract, be sure to contact the Student Life section at SFC or ask a Japanese friend who is knowledgeable in that area.

Other Guarantor Services

There are lots of companies that are able to provide rent guarantor services. The Global Trust Service (Trust Net 21) is one in particular that provides the service in English and many other languages.

Layout & Measurement Terms

To describe the size of a room, there are 3 common measurement units that are frequently used.

- m²,
- tsubo (about 3.3m²)
- jō (about 1.65m², or 0.5 tsubo)

"jō" is the most often used term. One jō size is equivalent of to one tatami mat.

The following is the list of acronyms used in floor maps.

Acronym	Type of Room	Term	Explanation
R	Single room	1R / Studio	A one-room directly connected to a kitchen and a bathroom.
K	Kitchen	1K	One main room with a separated kitchen
D	Dining	1DK	One main room with a kitchen/dining room combination
L	Living	1LDK	One separated living room and a bedroom.
S	Storage	1SLDK	1LDK with a storage

Japanese Room

It is getting less common, but there are still some apartments that have traditional Japanese-style rooms called *washitsu*, 和室. The floor is covered with *tatami* mats (woven straw) and usually comes with sliding doors, called *fusuma*, made of wooden frames and thick, opaque paper.

House Terminology

2-4 Shared Residence

Shared House / Guest House

Besides living in a privately rented apartment or a dormitory, a shared house is another option you can consider. Living in a shared house will provide you with the opportunity to widen your circle of friends. Shared houses are ideal who desire a sense of warmth and community at home.

Several people (not necessarily students) live together in the same house and share common areas such as a kitchen, a living room and bathrooms while an individual can still enjoy their own private living space. Some shared houses have women-only properties available as well.

In terms of cost, shared houses typically have lower initial and monthly fees compared to regular rental accommodations.

They do not usually require high deposits, key money, and/or other initial fees. Also, they are mostly furnished. Plus, the costs for gas/electricity/water/internet will be shared by all residents and regulated by the management company, so you do not have to apply for those services separately yourself. In most cases you do not need a guarantor, but some emergency contacts residing in Japan will be needed instead.

Please note that there is always the possibility of problems arising from sharing common spaces like the kitchen or living room with strangers.

2-6 Gas, Water, and Electricity

The first thing you need to do is to find out if you are responsible for paying your own utility bills. Some landlords pay the utilities themselves and include the cost in the rent. In that case, you should find everything working when you move into your apartment. If they do not, you will need to contact the utility services and pay the bills yourself.

Gas

There are two common types of gas used in Japan. One is natural gas (city gas or 都市ガス, *toshi gas*), and the other is propane gas (LP gas). When you move into a new place, find out which type of gas is used and call the gas company (you should get the information from your realtor). At the scheduled time, the gas company will send an employee who will check and then activate your gas lines, for which you must be present. If you live in Fujisawa City, city gas (*toshi gas*) is provided by Tokyo Gas Co., Ltd.

Please keep in mind that not using gas properly is very dangerous. If you notice the smell of gas, turn off the heat and open the windows. Please call the gas company immediately at the exclusive phone number for reporting gas leakages.

Water

You will have water service the moment you move in, but you will have to call the local water company to open a billing account.

Contact your local water company office when you start using the water and if there are any trouble with the service, you must notify them of the date when you wish to start using the water. Your realtor will give you the corresponding telephone number or you can call the number written on the right column.

There are several electricity companies in Japan. The major one in your area would probably be Tokyo Electric Power Company (TEPCO).

If you do not have electrical power when you move in, you will need to find the apartment's circuit breaker (usually, it's near the door). Turn all the switches on the breaker board to "ON" and confirm whether the electricity is being supplied to your room or not. Once confirmed, contact your local electricity company to notify your name, address, date of occupancy, and customer number, which is usually written on the envelope placed near the breaker or the meter. In some cases, there is a small card somewhere near the breaker. Fill it out with the required information and mail it back to your regional power company (the card will usually be pre-addressed). This will allow the power company to establish an account in your name and bill you monthly for the electricity.

How to reset the circuit breaker... Turn all the switches on the breaker board to "ON".

If a circuit shorts or you use more electricity than the electrical capacity of your residence, the circuit breaker will trip and your electricity supply will be cut automatically. If this happens, reduce the number of electrical appliances you are using before resetting the circuit breaker. Find out the electrical capacity of your residence and try not to use too much electricity at once. In case of emergency or difficulties, call the electricity company using the phone number written on your electricity bill. Make sure to keep your bills and receipts for reference.

Electronics from your home country may require voltage and plug adapters. Electrical voltage in Japan is 100 volts – 50/60 Hz AC. 50 Hz is common in eastern Japan, including the Yokohama and Fujisawa areas.

Japanese outlets and plugs come in the two-pronged, North American style, but only in the non-polarized form (prongs are equal sizes).

US PLUG(100-110V)

Note on Paying Bills

After receiving a calculation notice, the electricity, gas, and water bills will be sent to your home. You can pay them and other fees at convenience stores, banks, and post offices. Hand the clerk your bill and the amount due in cash and your payment will be processed. Please note that if you are behind in your utility payments, the service may be discontinued.

You can also arrange for payment via direct debit (銀行口座引き落とし / *ginkō kōza hikiotoshi*) from your bank account. Application forms for this service will be sent to you shortly after opening your utility accounts or you can ask each business operator for details. If you do so, the money will automatically be deducted from your account when the bill is due.

銀行口座引き落とし

(*ginkō kōza hikiotoshi*)

To stop your utility services when you are planning to leave or elsewhere in Japan, notify each of the companies at least one month before you move out of your accommodation. The electric and gas companies will send staffs to shut off your service and issue your final bill. The water company will send your final bill and close your account.

To learn how to read the bill, please refer to the TEPCO's website page.

Having a phone number is mandatory to live in Japan. You will not be able to open a bank account, rent an apartment, or go job hunting without one.

Prepaid Phones

Due to past criminal activities involving prepaid phones, phone sellers are required to verify the identity and place of residence of their customers. Typical proof can be in the form of your Residence Card or Certificate of Residence (住民票, *jumin-hyō*).

Prepaid phones start at around 2,000 JPY. Credit, which is used for outgoing calls, email, internet etc. depending on what features your phone supports, must be purchased in advance.

At Softbank, for example, you can choose between 3,000 JPY or 5,000 JPY prepaid cards.

Whichever you choose, the prepaid card will expire after 60 days. Phone numbers will remain active as long as you have valid credit in your account, but will expire after three months to a year without use. Credit can be bought at cell phone stores, convenience stores or online, and is typically valid for 60 days from activation.

2-8 Internet

It is vital for students to set up a reliable internet connection for an online learning environment.

Broadband Internet

To set up the internet at home, lots of students get a high-speed broadband connection.

Fiber-to-the-home (FTTH or Fiber Optics) offers fast connection and it is the most popular choice for home internet connections.

The line installation may take a long time if your apartment has not been physically connected yet.

Please note that cabling and ISP are separate providers in Japan. You need to apply to both a line provider and an ISP.

Pocket Wi-Fi

Renting a portable battery-powered Wi-Fi router is another popular option for international students.

Its big advantage is that it does not require cable installation. The contracting process tends to be simpler and faster, and gives you easy access to the internet on the go.

Usually, a credit card will be needed for payment.

2-9 Furnishing Your Apartment

First of all, it is important to know that most accommodations in Japan will come unfurnished. Even though there is usually already a small kitchen unit in most apartments, you may need to buy everything from light bulbs and curtains to your own desk, chair and bed. Furnishing an apartment can be difficult at first for this reason, especially for those coming to Japan for the first time. Moreover, most of the online shops (Amazon, Rakuten, etc.) are either only available in Japanese or only accept credit cards for payments. Please refer to the following list of places to find furniture, from budget to higher-priced, for your new Japanese home.

Here are some stores located near SFC.

IKEA

Furniture Chain Stores

The two biggest furniture retailers in Japan are MUJI and IKEA. Both sell cheap, quality furniture that you will have to assemble yourself, as well as bed sheets, pillows, curtains, dishware and more.

The nearest **MUJI** is in Terrace Mall, a shopping mall next to Tsujido Station on the north side. Another one is in Shonan Fujisawa Opa, a department building on the south side of Fujisawa station.

There is an **IKEA** store in Kohoku-ward in Yokohama and there is a free shuttle bus between the store and Shin-Yokohama station.

Recycle Shops – Second-Hand Stores

Japanese second-hand stores are known as "Recycle shops" and can be found in almost every city and are good for buying hefty appliances like fridges, washing machines and microwave ovens. Some will have a sign saying "リサイクル" (Recycle) and there are also franchise recycle shops like **HARD-OFF** (primarily electronics and musical instruments) and its sister branch, **BOOK OFF** (books, CDs, DVDs, and games).

There is a big recycling shop, **Treasure Factory** (トレジャーファクトリー) at Kameino 1-14-6 Fujisawa City.

It is a walkable distance from Shonandai Station. You can either take the Odakyu line for 1 stop or walk 20 mins.

There is another recycling shop, **Expert** (エキスパート), approximately 10 min on foot from Shonandai Station. Leave the station through exit G and go straight ahead until you reach Shonandai Park. Turn left and follow the road for 450 m. Then you will see the shop on your right.

Address: 6-34-10 Shonandai, Fujisawa-city

Sayonara Sales

Since some foreigners live in Japan for only a limited period of time, there is a constant flow of "Sayonara" (goodbye) sales as people look to sell their furniture and other things they do not want before they leave the country.

See the websites on the right for great resources for affordable furniture.

100-yen Stores

If you are looking for dishware, cutlery, cleaning supplies, storage items, portable shelves or other small household items for a reasonable price (100 yen), you should look for them at **DAISO**, **Seria**, **Can Do** or other 100-yen stores.

Daiso stores in Shonandai (the one near the Shonandai station and the one inside Ito Yokado) are popular among international students.

2-10 Moving

Tips to Make Your Moving Cheap

- ✓ Choose off-season (June, Oc., Nov.)
- ✓ Weekdays
- ✓ Afternoon
- ✓ Multiple estimates
- ✓ Take used boxes

After your dormitory contract is over, you may want to move to an apartment or another dormitory. Once the moving date is finalized, you need to decide if you wish to use a moving company or take the challenge to move everything by yourself.

When using a moving company, the cheapest month to move are June, October, and November. In contrast, you should try to avoid moving in March, April, July, August, and the Golden Week Japanese holidays, because these are the times when many people move because of company transfers and holidays.

Even if it is time-consuming, you should get multiple estimates from different moving companies. If you mention in front of the company's agent that you are getting multiple estimates, companies are likely to take that into account in their quotes.

Often you can also get a discount if you use used boxes.

How to Find a Moving Company

Moving companies in Japan offer all kinds of services from full-service movers where a team of professionals will pack and unpack every single item you own, to customer-assisted moves which have an incredible variety of options.

Here are some major moving companies which offer services in the Shonandai area:

Kuroneko Yamato

Nippon Express (Nittsu)

Akabo

Sakai Moving Service

Recycle Boy

Necessary Procedures When Moving-in/out

When you decide to move out, there are plenty of things you will have to take care of before and after your actual moving date.

☐ **Apartment Contract**

If you are living in a private apartment, you should give notice to the landlord at least one month prior to moving out depending on your contract. If you do not contact them early enough or if you caused any major damage to your apartment, the deposit (*shikikin*) you paid may not be refunded.

☐ **Cancel Utility Services (Gas, Water, and Electricity)**

You also will have to notify the gas, water, electric power companies, and the waterworks bureau of your moving-out date and ask for the settlement of the account.

If you are moving within Japan, you could tell them your new address at the same time so that they can start your utility services right after you arrive at our new place.

☐ **Official Registration**

If you are planning to change your address within the same city/ward, you only need to notify your city/ward of your new address. Bring your residence card, my number card, and notify them of your new address.

If you are planning to move to a different city/ward, your current city/ward will issue you a "Notification of moving out (転出証明書 / *tenshutsu shomeisho*)". You will need to bring it to your new city/ward office and report your moving in "Notification of moving in (転入届 / *tennyu todoke*)" within 14 days after you have settled in at your new residence.

For your pension, visit the Pension Division counter at your new city/ward office. Bring your pension book and personal seal. Fill out the form to change your address. There are no particular procedures for you to do at your old city/ward office.

If you are planning to leave Japan, fill out the "Application for the Lump-Sum Withdrawal Payments form" and send it along with your blue pension book, a copy of your residence card, and a photocopy of your passport to the Japan Pension Service.

☐ **Bank**

Bring your bank card, bank book, and official documents (seal and residence card) to the bank. Visit the counter to change your address.

Contact your credit card company as well.

☐ **Postal Mail**

As soon as your new address is determined, please go visit the city/ward office. You are required to report your new address in Japan to your local city/ward office (住民登録/*Jumin-toroku*) by submitting a prescribed form (転入届/*Tennyu-todoke*) **within 14 days** of the moving-in date. The form is available at the city/ward office.

If you fail to give notification of your place of residence without a justifiable reason or submit a fake address, your status of residence may be revoked.

After completion of the residency process, your address will be written on the back side of the residence card.

You will be required to report your new address to the local city/ward office within 14 days every time you change your address in Japan.

Upon request, your local city/ward office will issue you a "Certificate of Resident Record 住民票/*Juminhyō*, that can confirm your current resident record. You might be asked to present or submit the certificate, when you are getting a mobile phone or opening a bank account. It generally costs about 300 yen (fee varies depending on areas) to have the certificate issued.

3-2 National Health Insurance

National Health Insurance (NHI)— 国民健康保険 / *kokumin kenko hoken*, often abbreviated as *Kokuho* in Japanese—is a health insurance system in Japan that allows the insured to receive medical care without financial concern when ill or injured by splitting the medical care expenses between the local or national government and the insured.

国民健康保険(*kokumin kenko hoken*)
National Health Insurance

Full-time international students who will be studying in Japan for more than three months **must join** the NHI unless covered by an insurance plan of a family member who lives in Japan. Overseas medical insurance will not be accepted.

With the NHI, approximately 70% of your medical expenses will be covered when you receive treatment at hospitals or clinics that are NHI medical service providers (most hospitals in Japan accept NHI). You will have to pay the remaining 30% of the costs.

Please note that the National Health Insurance does not cover expenses for cosmetic surgery, orthodontics, or childbirth.

How to Enroll in National Health Insurance (NHI)

When you register your address at the city/ward office, you'll be guided to enroll in NHI.

No fee will be charged when you join. The insurance card will be sent to your home later, but a National Health Insurance Certificate can be issued on the same day upon your request.

When you receive your NHI card, check to see if there are no mistakes in the description and be sure to present it at the reception whenever you consult a doctor.

Lending your NHI card to someone else is punishable by law. Duplicated and/or expired NHI cards are invalid.

Deduction

Japanese National Health Insurance Premiums amount is determined by the city/ward office based on your income of the previous year. If the NHI recognizes that your income is below a certain amount, a reduction to your insurance premiums will be applied (scholarships are not considered as income).

Please pick up an **Income Declaration for National Health Insurance form** (国民健康保険料申告書 "*kokumin kenko hokenryo shinkokusho*") at the NHI counter, fill it out, and submit it with the application for NHI.

If you do not submit your declaration form, you may be charged with the highest monthly insurance premiums.

From the following year, the form will be sent to your home address.

Please note that insurance tax (premium) must be paid starting from the month you became an eligible resident in that city/ward, not from the month you are notified of enrollment. Keep in mind that you will be required to bear full medical expenses during the time you are not enrolled in NHI. For this reason, we recommend that you purchase foreign or travel health insurance while you are still in your country for the first few days after your arrival.

For more information, please contact the NHI counter at your local city/ward office.

Individual Number (also called “My Number” in Japanese) is a 12-digit number issued to each individual residing in Japan. It is used for administrative procedures related to social security, taxation, and disaster relief. Your Individual Number is valid for life, so please exercise due caution about sharing your number and take care to not lose any documents on which your number is shown.

In about 2-3 weeks after you have completed resident registration, “Individual Number Notice” will be sent to your address by registered mail. (See the image below).

Enclosed in the envelope are the “Notification Card for My Number (Notification Card),” “Application Form for the Individual Number Card,” a return envelope to submit the application form, and an instruction booklet.

Notification Card

The Notification Card is made of paper and it shows your 12-digit My Number as shown below. It cannot be used as an identification card. You will need to apply for a plastic card containing an IC chip and the bearer's My Number.

How to apply for a Plastic My Number Card

To apply for a plastic My Number card, fill out the enclosed application form and paste your photo onto the form. Put it in the return envelope and post it in a postbox. You can also apply through smartphone, PC, or a town ID photo booth. It will take approximately one month for the issuance of the card. The plastic card can be used as your health insurance card.

● Report immediately to a police station and a municipal office if you lose your Notification Card (the paper card) or My Number Card (the plastic card),

Call the toll-free number in the right column to suspend the card's function.

● Do not give your My Number to others.

It is prohibited to give your My Number to others, or to use someone else's My Number. In case you were asked to give your My Number, be sure to check their purpose of use, and not to allow others to abuse your My Number.

Other Procedures

4 Other Procedures

4-1 Opening a Bank Account

普通預金(*futsu yokin*)
a general account

Under the Foreign Exchange and Foreign Trade Act, persons including international students, are considered “non-residents” for their first 6 months in Japan.

通帳(*tsucho*)
a bank book

“Non-residents” are not allowed to open a bank account for their first 6 months in Japan, except for JP Bank and Suruga Bank. However, even these banks allow you to only make deposits or withdrawals until you have reached the sixth month of living in Japan.

キャッシュカード
(*kyasshu kado*)
a cash card

JP Bank

To open a bank account at JP Bank, you need to visit one of their branches. There is one next to the North gate of SFC. The application form will be given at the designated counter.

Bring your residence card, your student ID card with a sticker on the back, and your phone number in Japan. Some branches may ask you to come with a Japanese speaker.

After completing the paperwork, you will receive a bank book (*tsucho*) on the same day, and a cash card (*kyasshu kado*) will be sent to the address of the account holder approximately one week later. (There is a case where they cannot issue your bank book on the same day for some reason. In that case, your bank book will be sent to you by post later.)

*MEXT scholarship recipients are required to open an account at JP Bank to receive their scholarship.

<https://www.surugabank.co.jp/surugabank/foreigners/account/>

Suruga Bank

You can open a bank account from your smartphone. Please follow the instructions on their website.

*After residing in Japan for 6 months, you need to visit the nearest bank branch to change your “non-resident account” to a “resident account”.

Which Bank to Choose after Residing in Japan for 6 months?

Banks in Japan primarily consist of major city banks such as Mizuho Bank, Mitsubishi UFJ Bank, and Mitsui Sumitomo—that have head offices in large cities like Tokyo and branch offices across the nation—and regional banks including Suruga Bank or Bank of Yokohama, that provide financial services in specified prefectures or regions in the country.

Students choose their banks based on convenience, but please note that some scholarship providers designate specific banks for their scholarship payment.

There is one JP post bank near the North gate of SFC and the convenience store “Lawson” on campus also has a bank ATM inside the shop. You cannot open a bank account at ATMs, however, you can withdraw cash from those ATMs once you set up your bank account in one of the branches outside of campus (You can find bank branches near main train stations such as Shonandai/Tsujido/ Fujisawa).

<Note>

Keio University will make a transfer to your bank account when necessary, but please beware that Keio University cannot make transfers to students' Japan Post Bank accounts.

Closing Your Bank Accounts

Please make sure to close all of your bank accounts when you leave Japan.

When your unused bank accounts are used for bank transfer fraud or other scams, you will be held criminally responsible.

Bank Services

Banking services including deposits and savings, direct payment for utility bills, automatic debit transfer for credit cards, remittance, etc. are all handled at banks and post offices (ゆうちょ銀行/*yucho ginko*). If you wish to send money home or overseas, you should consult with your bank about the options you have, since each financial institution varies in commission fees and handles services differently. For conducting domestic and overseas remittance that amounts to more than 100,000 JPY, a form of personal ID (residence card, health insurance card, etc.) is required.

When making a cash withdrawal at a bank counter, you will need the personal seal that you registered with when you opened your account or give them your signature if you did not use one. If using a bank card, cash can be withdrawn from ATMs or cash dispensers, but be aware that there may be a limit to the number of withdrawals and the amount that can be withdrawn per day.

Bank counters are normally open 9:00–15:00, and are usually closed on weekends and holidays.

As each financial institution has different service hours and fees at their branches and ATMs, please check their websites for more detailed information.

Foreign Currency Exchange

Bank branches outside of Tokyo tend not to deal with foreign currency exchange.

You can find currency exchange shops such as World Currency shops in big cities and currency exchange machines in major train stations such as Akihabara, Ginza, Shinjuku, Kamakura, and etc.

4-2 Credit Card

There are many choices of credit cards, but ones issued by banks are subject to strict screening; it is considered difficult for those who have been in Japan for less than one or two years to get approved by the credit card company.

The following credit cards are easy for international students living in Japan to apply for and to get approved. Also, they charge no annual membership fee.

Chapter 5

Status of Residence

5 Status of Residence

This chapter provides some legal procedures at the Immigration Bureau for the change of your status of residence.

You are required to notify the authorities in the event of any change in the details entered in the status of residence and certain other matters during the period of stay.

For the change of the place of residence, you need to notify the city/ward office as instructed in **Chapter 3**.

Changes to items other than place of residence must be notified at the Regional Immigration Bureau in person.

Online Application

Foreign nationals can apply for residence procedures online if they have a My Number card.

For details, please check the Immigration Services Agency website.

<https://www.moj.go.jp/isa/applications/guide/onlineshinsei.html>

【Caution!】 Staying in Japan without a valid residence status means that you are violating Japanese immigration laws and there are various types of penalties for overstaying like deportation, a fine, or imprisonment. The simple reason that you forgot to extend your status of residence is not accepted and will also be treated as a violation of Japanese law.

5-1 Extension of Period of Stay

When first arriving in Japan you will receive a residence card at the airport, which has your period of stay listed on the front of the card. The possible periods of stay for a student with a status of residence of "Student" are from three months and extend up to a maximum of four years and three months.

If you wish to remain in Japan as a student beyond your designated period of stay, you must apply for an extension of your period of stay at the Immigration Bureau with jurisdiction over your area of residence.

You may apply for an extension from three months prior to the expiration date of your status of residence. You will receive a new residence card after approval of the extension.

Application Process

- 1 Download the "**Application for Extension of Period of Stay Form**" from the website of the Ministry of Justice.

*Use the format "10 Student".

The form consists of 5 pages. Please fill out the first 3 pages. The remaining 2 pages are to be filled out by Keio University.

- 2 Bring the application form to the Academic Affairs Office at SFC.

Come visit the main counter in the Alpha Building to fill out the "**Request Form for Certificates**" and **buy a 200 JPY ticket** from the ticket vending machine.

Hand in the application form along with the "request form for certificates". Show us your student ID and residence card.

It should be ready for you to pick up after a half day from your request.

- 3 Use the automatic certificate issuing machines for the "**Certificate of Enrollment**" and "**Transcript of Academic Record**". They are 200 JPY each.
- 4 Bring all necessary documents and items to the Immigration Bureau to apply.

- ☐ Application for Extension of Period of Stay Form
- ☐ Certificate of Enrollment
- ☐ Transcript of Academic Record
- ☐ Passport
- ☐ Residence Card
- ☐ ID photo (4 x 3cm, taken within 3 months)
- ☐ Financial Proof Documents to certify your ability to cover all necessary financial expenses while staying in Japan
- ☐ *4,000 JPY application fee (a revenue stamp)

f

*You can purchase a 4,000 yen revenue stamp (印紙 *inshi*) at either a post office or the Immigration Bureau.

- 5 After a few weeks, you will receive a slip notifying you that your renewed residence card is ready to pick up at the Immigration Bureau.

Your *work permit" will expire the moment your visa status expires. Please do not forget to extend your work permit at the same time.

- 6 Once your new residence card is issued, submit a copy of your residence card (both front and back) to the Student Life Section at SFC.

If you fail classes and are deemed to repeat a year

原級(genkyu)
repeating the previous
year

When a "Student" visa holder fails to fulfill their obligations as a student (i.e., study or research) for 3 consecutive months or more without a valid/good reason, their visa will be subject to revocation.

Once your status of residence is revoked, you will be forcibly deported from Japan in malicious cases, and furthermore, you will be barred from entry to (and resuming studies in) Japan for a period of 5 years.

If you are deemed to repeatedly remain in the same year, there is a possibility that the Immigration Services Agency of Japan may judge you as not achieving your original purpose of "Study" and your application to extend your residence status could be refused or only permitted for a shorter period. In the case that your residence status is not to be extended, you can no longer stay in Japan to continue studying.

5-2 Work Permission for Part-Time Jobs

Students who hold the status of residence of "Student" are allowed to stay in Japan only for study and research purposes. Therefore, you are not allowed to work under the "Student" status.

If you wish to engage in secondary activities aside from your studies, such as a part-time job and internship, you must obtain the "Permission to Engage in Activity other than that Permitted under the Status of Residence Previously Granted" (資格外活動許可/*Shikakugai-katsudo-kyoka*) beforehand from the Immigration Bureau at the airport or the city you live.

With this permit, students are allowed to work for up **to 28 hours a week**—up to 8 hours a day when the school is "officially" not in session—as long as the work is not deemed to be socially immoral.

Application Process

【Upon Arrival in Japan (for the First Entry with Student Visa)】

Submit the Application Form (available on the website of the Ministry of Justice) at immigration at the port of entry.

【If You Are Already in Japan】

- 1 Prepare the following documents and apply at the Immigration Bureau nearby.
 - ☐ Application Form (available on the website of the Ministry of Justice)
 - ☐ Passport
 - ☐ Residence Card
 - ☐ A document which specifies details of your part-time job (Submit only if you have already secured a job)
- 2 When your application is approved, a seal indicating permission will be affixed to your passport and an entry will be made on your residence card if you have been issued one.
- 3 Submit a copy of your residence card (both front and back) to the Student Life Section at SFC.

In this case, you are required to either leave Japan or have your status of residence changed as appropriate without delay.

Note:

- 1 You are required to return your residence card to an immigration officer at the airport of departure when you leave Japan during your temporary leave of absence.
- 2 If you continue to stay in Japan during your temporary leave of absence, consult with the Immigration Bureau directly for more details on changing your status of residence.

Furthermore, activities such as part-time work will not be permitted during the temporary leave of absence.

Returning to Study After a Temporary Leave of Absence

You are required to reapply for a status of residence appropriate for resuming your studies following a temporary leave of absence overseas.

Before entering Japan, you must obtain a Certificate of Eligibility and apply for a “Student” visa at the Japanese Embassy in your current country of residence.

Contact the Office of International Affairs for procedures to apply for a Certificate of Eligibility at least 3 months prior to returning to Japan.

The required documents differ by student (e.g. an original medical certificate from a doctor or a Certificate of your Military Service, etc.)

Withdrawal

If you withdraw from the university, you will not be able to remain in Japan with the status of residence of "Student".

Please submit the "Notification of the Accepting Organization (left the organization)" to the Immigration Bureau within 14 days after withdrawing from Keio University and promptly leave Japan or have your status of residence changed as appropriate.

You are required to return your Residence Card to an immigration officer at the airport of departure when you leave Japan after your withdrawal from Keio.

If you decide to continue to stay in Japan after your withdrawal from Keio, consult with the Immigration Bureau for more details about changing your status of residence.

Transfer

If transferring to another university, you will need to change the accepting organization on your status of residence.

Please submit the "Notification of the Accepting Organization (left the organization and transfer to a new organization)" to the Immigration Bureau within 14 days after the change takes place.

Graduation

A) For those planning to work in Japan after graduation, you will have to change your status of residence from "Student" to the appropriate status of residence according to the type of job.

- ☐ Passport and Residence Card

If you are due to start work in April, the Regional Immigration Bureau accepts applications for a change of visa status from December of the previous year. It usually takes one to two months for your application to be processed. Make sure to consult with the HR section of your company and apply in advance so that you have the appropriate status of residence by the time you start working.

- B) For those continuing job-hunting after graduation, your status of residence needs to be changed to “Designated Activities” which grants a six-month period of stay.

This status of residence may be extended once, meaning that you will be allowed to stay for a period of up to 1 year after graduation to find employment.

You will need a letter of recommendation from Keio University to obtain this status of residence. Please submit the Google form to request for an interview to issue a recommendation letter before confirming your graduation. The deadline will be announced on K-support in August and February.

The staff from the Office of International Affairs will contact you and conduct an interview in order to issue the letter of recommendation.

In case you cannot find a job within 6 months, please submit the same Google form again for another interview for the next 6 months.

- C) For those planning to move to other countries after graduation, you will be required to leave Japan even if there is time remaining on your status as a “Student”.

※These may be subject to change. Check in advance with the Immigration Services Bureau and the Office of International Affairs.

~Note~

- After changing your status from "Student" to "Temporary Visa", you will no longer be considered a mid- to long-term resident. Ask the City Office beforehand whether you will lose your right to receive benefits from the City Office.
- If your period of stay already extends beyond the planned graduation/completion date to allow for a period of time to prepare to leave Japan, changing the status of residence to a "Temporary Visa" to prepare for departure will in principle not be permitted.

Chapter 6

Financial Aid

6 Financial Aid

Scholarship programs provide assistance to students who have difficulties in pursuing their studies for financial reasons or those who demonstrate particular excellence in their studies.

Through the award of grants or loans, the scholarships help to foster an environment in which students can fully devote themselves to their studies, so that undergraduates may develop into successful professionals with an active role in society, and graduate students may acquire a high level of expertise to enable them to contribute to society.

This chapter introduces the general application process for scholarships available after enrollment at Keio SFC. Details vary depending on the scholarships, so applicants should refer to the Scholarship Information Guidebook (奨学金案内/*Shōgakukin Annai*) and the application guidelines for each of the scholarships.

In general, there are two types of scholarships:

1. Scholarships for International Students (persons living in Japan under the status of residence "student")
2. Scholarships for Japanese Students and international students whose status of residence is either "Permanent resident", "Statutory Special Permanent resident", "Long-term resident", "Dependent", or "Child or spouse of Japanese national (permanent resident)".

6-1 Scholarships for International Students

Scholarship Application Registration

Before being able to apply for scholarships, you will have to complete the Scholarship Application Registration at the beginning of each semester.

Scholarship Application Registration can be completed online. More information on the exact registration period will be announced on the Keio University International Center's webpage.

There are some documents you have to prepare while you are still in your home country, and since you will be very busy after your arrival, it is highly recommended that you prepare the prescribed forms before arriving in Japan.

Undergraduate and graduate students entering Keio University in September 2024 will be able to download the necessary forms from the Keio University International Center webpage on the right column.

The list of necessary documents for the 2024 Fall Semester Scholarship Application Registration can also be found on the same webpage. The required documents must be submitted to the Student Life Section through online form during the designated period.

Information for the 2025 Spring Semester Scholarship Application Registration will be announced on the same webpage around late January to early February 2025.

Search for scholarships

Announcements will be made sequentially on the Information on Scholarships page of the Keio University International Center 's Website (as on the left) for each campus when scholarships make calls for applications. Please be sure to read the scholarship outlines, application guidelines, and other relevant information.

Scholarship recruitments and application submissions mostly take place from April to May. If you are considering applying for a scholarship, make sure that you do not miss the deadlines.

Scholarships are categorized as

- ① **Scholarship provided by the Japanese government**
- ② **Scholarships provided by the Independent Administrative Institution Japan Student Services Organization (JASSO)**
- ③ **Scholarships provided by Keio University**
- ④ **Scholarships provided by private foundations/local governments**

Though the scholarship providing organization may differ, you have to apply through Keio University for any scholarship of these four categories.

Application periods/deadline dates, submission times, and places to apply differ for each scholarship. Please check the Information on each scholarship.

Applying for Scholarships

Applications must be made by the applicant through the designated online form. We do not accept submissions from guarantors, friends, etc., on a student's behalf.

Furthermore, under no circumstances will applications be accepted for scholarships for which the deadline (date and time) has already elapsed. If for an unavoidable reason (attending an academic conference, teaching practice, etc.) the applicant cannot submit their application within the designated period, they must consult with the Student Life Section in advance.

The last day of the application period is always very busy. Applicants must take into consideration the times of classes, and make sure that they have sufficient time to apply. Under no circumstances will the documents that have been submitted be returned to applicants.

Selection

Because all scholarships have a quota for recommendations and the number of students accepted, not all applicants will be successful in their applications. Each scholarship has a selection process, and in some cases, students are required to submit an essay or undergo an interview. The time frame from recruitment to the selection of applicants is often quite tight, so if an application is incomplete or contains errors, it may not be considered for selection.

You will in principle be contacted regarding scholarships (recruitments, interviews, announcements of nominees and officially selected students, etc.) via email. Please pay due attention to an email from the SFC office when making an application for a scholarship.

Selection and Payment of Funds

The scholarship will be transferred to an account made out in the student's name. Some scholarships will require students to carry out a prescribed set of procedures after selection. Please follow the instructions that are provided.

If the scholarship recipient repeats the previous year, takes a temporary leave of absence, studies abroad, or withdraws from the university, the provision of the scholarship or loan may be terminated, or part of the stipend already received may have to be returned. If any of the above cases apply, the student must swiftly report this to the scholarship section on their campus and complete the necessary procedures.

6-2 Scholarships for Japanese Students

If you are Japanese students or international students whose status of residence is either "Permanent resident," "Statutory Special Permanent resident," "Long-term resident," "Dependent," or "Child or spouse of Japanese national (permanent resident), you do not meet the conditions on scholarships aimed at privately financed international students. In this case, please refer to the 「慶應義塾大学奨学金案内」 (*Keio Gijuku Daigaku Shougakukin Annai* = Keio University Scholarship Guide) and 「慶應義塾大学大学院奨学金案内」 (*Keio Gijuku Daigaku Daigakuin Shougakukin Annai* = Keio University Graduate School Scholarship Guide) to get precise information on the application process, financial aid and scholarship types.

Please download them from the URL on the right column. A few prescribed forms are available in Japanese only. Even if you do not speak Japanese, you have to fill them out in Japanese if necessary.

Please keep in mind that most scholarships start in April, but the application period may begin up to one semester prior to that.

In principle, you cannot apply for scholarships if you are taking a temporary leave of absence from the university even if you are a regular student at Keio University.

Before deciding on which scholarship, you want to apply for, you should inform yourself about the different conditions and types of scholarships. First of all, you have to choose whether you want to apply for a benefit type or loan type of scholarship.

Loan type means that you will have to pay the amount of money back after you graduate, and depending on what kind of loan type scholarship you receive, you may have to pay interest on top of the debt.

Chapter 7

Health

7 Health

In Japan, there are health insurance systems that help to reduce the cost of medical care. Foreign nationals living in Japan for more than three months are required to join one of the following insurance systems:

- Employees' Health Insurance (generally covers individuals who are employed by a company)
- National Health Insurance (covers individuals who are not eligible to join employees' health insurance) In addition, insurance is provided by mutual aid associations to those who work for public schools or the government.

Most international students are required to enroll in National Health Insurance unless they are covered by the Employees' Health Insurance of a family member who lives and works in Japan.

7-1 National Health Insurance (NHI or *Kokuho*)

国民健康保険

(*Kokumin Kenko Hoken*)

National Health Insurance

National Health Insurance (NHI)—*kokumin kenko hoken*, often abbreviated as *Kokuho* in Japanese—is a health insurance system in Japan that allows the insured to receive medical care without financial concern when ill or injured by splitting the medical care expenses between the local or national government and the insured.

With NHI, approximately 70% of your medical expenses will be covered when you receive treatment at hospitals or clinics that are NHI medical service providers (most hospitals in Japan accept NHI). You pay the remaining 30% of the costs.

Please note that National Health Insurance does not cover expenses for cosmetic surgery, orthodontics, or normal childbirth.

Please refer to **3-2** for **National Health Insurance**

National Health Insurance Benefits

When you get sick or injured, you can receive the following medical care for only a part of the medical costs by presenting your NHI card at the reception of medical institutions:

- Medical consultation
- Medical treatment
- Medication, injections, and other treatments
- Hospitalization and nursing (excluding meals while hospitalized)
- Home care (home-visit by a regular doctor) and nursing
- Home-visit nursing (if a doctor judges it necessary)

You are still able to receive NHI benefits when you are injured due to an act by a third party, such as a traffic accident. However, if you receive medical expenses from the person who caused the accident or settle it out of court, you may not receive NHI benefits. If you sustain damage, be sure to consult the NHI office.

In the circumstances described below, you will be required to bear the full amount temporarily, but after an application is made at the NHI counter and a decision is made through screening, you may be reimbursed for the amount excluding your co-payment.

- 1) Medical treatment you received without your NHI card because of an unforeseeable accident or illness
- 2) Cost of a corset or other prosthetic devices (applicable only if a doctor presents a diagnosis as necessary)
- 3) Treatment for a broken bone or sprain received from a Judo Therapist who does not accept NHI

- 4) Cost of blood from a blood transfusion used in a surgical operation, etc. (applicable only if a doctor presents a diagnosis as necessary)
- 5) Cost of acupuncture, moxibustion, massage, and other treatment (applicable only if a doctor presents a diagnosis as necessary)
- 6) Medical treatment you received while you were traveling overseas (excluding travel for treatment purpose)

7-2 Keio Student Health Care Mutual Aid Association (*Gakuseikenpo*)

The Keio Student Health Care Mutual Aid Association (hereafter "*Gakuseikenpo*") is a mutual aid organization established with the aim of supporting student life from a health perspective.

The *Gakuseikenpo* will reimburse a portion of the co-payment of a member's medical expenses when they receive treatment at a medical institution upon presenting a health insurance card.

Regular undergraduate and graduate students at Keio University are eligible to apply for a partial reimbursement of medical expenses.

All types of treatment (hospitalization, outpatient treatment, treatment at a pharmacy, and treatment at a clinic) within the same month are combined and considered as a single instance of co-payment.

The application must be completed online.

Dental treatments are not covered by the medical care benefit system (excluding oral and maxillofacial surgery).

Amount borne by patient: 2,000 JPY instance of co-payment.

Reimbursement limit: 50,000 JPY per application. 150,000 JPY per person per year.

For more information, please access the link for the guidebook on the right column.

Please Note: Japanese Language Program students, Keio International Program students, research students, and other non-degree students are not members of the Keio Student Health Care Mutual Aid Association, and are therefore not eligible for this insurance coverage.

Insurance for Students

Pursuing Education and

Research

Keio University is a member of Japan Educational Exchanges and Services (JEES), and through it, Keio SFC pays for "Personal Accident Insurance for Students Pursuing Education and Research," and "Liability Insurance coupled with *Gakkensai*" insurance plans that cover students who suffer physical injury from an unexpected accident or bear legal liability for damages arising from inflicting injuries to third parties in the course of their educational and research activities.

This insurance is for regular undergraduate and graduate students, research students, short-term international students (MEXT scholarship students and designated exchange students only), Japanese Language Program students, and Keio International Program students.

"Educational and research activities" means regular curricular activities on- and off-campus, participation in university events, and extracurricular activities (advance submission of "Notification of Off-campus Student Activities" to the university is required for off-campus activities).

Accidents that occur on the way between a student's residence and the university, or while traveling between university facilities, are also covered.

However, cases related to "illness" are not covered by this insurance. In addition, depending on the number of hospital visits it takes to recover, you may not qualify for this insurance.

Making an Insurance Claim Following an Accident

1. Notify the Student Life Section at SFC in the Alpha Building, of the accident: After contacting the Student Life Section, the student must fill in and submit an accident notification.

*The student must submit the notification within thirty days of the accident to the Claims Service Division of Tokio Marine Nichido (property/casualty insurance company) using one of the following methods:

Which Institution to Visit

Medical institutions in Japan are divided into:

Large hospitals

- University-affiliated hospitals
- Public hospitals operated by prefecture or city
- Large private hospitals

Small clinics

- Local clinics

Large hospitals are equipped with hospitalization facilities and checkup tools. National and public hospitals maintain high level medical systems for each of their specialized medical departments. At hospitals with up to 200 beds or more, patients may be charged extra fees (2,500 JPY-5,000 JPY) unless they visit with a referral by a doctor. Also, walk-in patients usually have to wait quite a long time (almost a full day) before being able to see a doctor.

Small clinics are medical institutions with hospitalization facilities of 19 beds or fewer. Many of them have no hospitalization facilities at all. They are suitable for minor conditions.

It is advised to visit a clinic (doctor's office) first and further receive specialized treatment at a large hospital upon necessity.

Which Department to Choose

If you have an idea of what is wrong, you can select the specialist clinic that is best suited to your needs. However, most people will go to a general clinic for what's called "Internal Medicine" (内科/*naika*), which acts kind of like a General Practitioner.

Contact Lenses/Prescription Glasses

You can buy prescription glasses without visiting an eye doctor. Most glasses shops give you a free eye examination.

However, shops do not sell you contact lenses without a prescription issued by an ophthalmologist. When you buy disposable contact lenses, you need to visit an ophthalmologist every 3 months to renew the prescription. It applies to online shopping as well.

HIV Testing and HIV/AIDS Counseling

In Japan, some public health centers nationwide offer free, anonymous HIV testing and counseling.

Languages

Outside of Tokyo, it might be difficult to find hospitals/clinics with English-speaking staff. It is recommended to go with a person who speaks Japanese for communication support. If your illness is not urgent or serious, you can ask a university staff from the Office of International Affairs at SFC for assistance.

Most doctors usually can read/write English, so bringing notes about your own medical information in English might help.

Multilingual Medical Questionnaire

The website on the right column was produced by the Specified Nonprofit Corporation to help people from overseas explain the condition of injuries and symptoms of illness to doctors and other medical personnel.

Examination Procedure

① Make an appointment

If you go and see a doctor without an appointment, you may have to wait for a long period of time. Some small clinics don't take reservations and see patients on a first-come-first-served basis. Please try to arrive at least 10 minutes before their opening time to reduce your waiting time.

Usually, opening hours are 9:00-11:30 / 15:00-17:30.

Hand in your national health insurance card and your note at the receptionist. Some clinics refuse examinations without an insurance card. While they are taking a photocopy of your health insurance card, you are requested to fill in their medical questionnaire.

② When your name or number has been called, go into the examination room to see the doctor.

③ You may be asked to take extra tests such as X-ray, blood analysis, urine analysis, or/and ECG (electro-cardiogram) per doctors' instructions.

④ After the doctor has examined your condition, you will return to the waiting room to be called for the payment. Most small clinics only take cash.

⑤ When you settle your bill at the cashier (usually at the same reception desk), you will receive a patient's card (*shinsatsu ken*) and a prescription (*shohosen*).

A patient's card is used as a membership card and it helps clinics find your medical record at your next visit.

*A few clinics have in-house prescription systems. At those clinics, you will receive your medicine after your payment.

⑥ Take your prescription to a designated pharmacy or a drugstore to receive your medicine. You will need to pay for the medicine separately. Please be aware that prescriptions are normally valid only for 3 to 4 days after issuance.

Medication

At the pharmacy/drug store, you may be asked if you prefer generic drugs (後発医薬品 *kohatsu iyakuhin*), which are interchangeable with the original proprietary drugs. As they both have the same active pharmaceutical ingredients, dosage forms, strength, quality, indications, effects, directions, and dosage. Generic drugs are usually less expensive than the original drugs because the developmental cost is lower.

後発医薬品・ジェネリック
(*kohatsu iyaku hin*)
generic drugs

Doctors will usually prescribe medicine which is covered by your insurance and with which local pharmacies are supplied. You may find yourself going home with a bag full of medications just for three days. If the doctor does not explain the efficacy of each medicine do not be afraid to ask for clarification about the medication and what it is for.

Over-the-Counter Medicine (OTC)

You can buy non-prescription medicine at drugstores from pharmacists without visiting hospitals/clinics. If you experience a cold, headache, stomach issues, or get wounded, OTC (over-the-counter) medicine can be purchased at drugstores or large supermarkets.

Chapter 8

Daily Life

8 Daily Life

Life in a foreign country with different culture and habits can be challenging, but a wonderful experience. This chapter provides some useful information for living in Japan.

8-1 Living Cost

円(en) Japanese yen

Currency

The currency in Japan is the yen (JPY).

The yen notes are divided into 4 bills: ¥ 1,000, ¥ 2,000, ¥ 5,000, ¥ 10,000. On the other hand, yen coins are divided into 6: ¥ 1, ¥ 5, ¥ 10, ¥ 50, ¥ 100, ¥ 500.

Although cashless payments are becoming more popular, there are still shops which only accept cash, especially outside of Tokyo. Therefore, you need to carry a certain amount of cash all the time.

消費税 (shouhi-zei)
consumption tax

Consumption Tax

The Consumption tax rate in Japan is 10%, except for food and beverages which is 8%. The 10% consumption tax is applied when you eat and/or drink at the eating space of suppliers like fast food chains, convenience stores, and others. Price tags have to include the consumption tax amount.

Tipping

If you are from a country where tipping is common, you will need to get used to the fact that tipping is relatively rare in Japan. Tipping is not expected and will be turned down in most situations.

Living Expenses in Japan

Monthly living expenses in Japan for a student from overseas (including tuition) on average nationwide come to about 138,000 JPY. The most expensive region is the Kanto region at 151,000 JPY. The Kanto region includes Tokyo, where the monthly living expenses average 154,000 JPY. The high rent as well as transportation costs contribute to the high costs of living in Tokyo. It will not be as high in the Fujisawa (SFC) area.

Moreover, the cost of living varies depending on factors such as housing expenditure, food budget, lifestyle, etc.

List of Japan Connected-free Wi-Fi Hotspots

<https://www.ntt-bp.net/jcfw/area/index.html>

Free public Wi-Fi in Japan

Free public Wi-Fi networks in Japan are available in large cities but are sparse in the countryside and mountainous regions.

While the number of Wi-Fi hotspots is increasing, there are not enough free Wi-Fi services available for regular usage.

The following facilities provide free Wi-Fi service. Some require pre-registration via the service providers' website.

- International airports (Narita, Haneda)
- Hotels
- Some cafes/restaurants (Starbucks, McDonald's, etc.)
- JR and subway stations in large cities
- Shopping malls (Terrace Mall etc.)
- Supermarket (Ito Yokado, etc.)

8-3 Postal Service (*Takuhaibin*)

Japan Post, one of the main delivery services in Japan, provides a range of postal services including the delivery of postcards, letters, parcels, and registered mail, as well as banking and insurance services.

Takuhaibin Delivery Services are convenient for sending parcels, luggage, and various other types of goods from door to door nationwide. You can even use *takuhaibin* service for your moving unless you have lots of belongings.

You can send *takuhaibin* any time of the day from any convenience store while most post offices are only open from 9:00 to 17:00 on weekdays (Some large-scale post offices are open on Saturdays).

Delivery is usually made by the next day, and costs are moderate. You will receive mail and packages through either Japan Post or *Takuhaibin* Delivery Services. If you are not at home upon delivery, delivery staff will take them back and leave a notice of delivery instead.

You can request re-delivery by phone and/or online (depending on the delivery company).

Instructions on how to schedule a redelivery are usually written on the slip. The delivery companies usually keep your item for 1 to 2 weeks before it is returned to the sender if no redelivery request is made.

For international mail service, you have EMS from Japan Post, DHL, and FedEx.

Issued by subway and train companies other than JR, and interchangeable with Suica.

Suica

Issued by JR east. And interchangeable with Pasmo.

How to Pay the Bus Fares

The bus fares can be paid by cash or by prepaid e-money card.

If you pay the fare in cash, it is recommended that you have the exact amount ready before boarding the bus. You will not get any change back if you drop more than the fare into the fare box. You can also change a 1,000 JPY bill, a 500 JPY coin, and a 100 JPY coin into smaller denominations by putting them in the change machine next to the fare box. Please change the money before you drop it in the fare box.

If you pay the fare by prepaid e-money card, please obtain a Pasmo or Suica. They are rechargeable prepaid rail cards. Prepaid cards are sold at ticket vending machines in train stations. A 500 JPY deposit will be deducted from the cash amount you charge the card with. (You can get this money back when you return the card to a ticket office)

When using prepaid cards on a bus, swipe it over a contactless reader when boarding/disembarking. You can top up the card at the ticket vending machines in train stations, but bus drivers can also help you top up the card.

*Please note that the sales of plastic IC cards (Suica/Pasmo) have been suspended since June 2023 due to the ongoing global chip shortage.

Here are some tips from previous new students on how they dealt with this problem.

- Ordering a Suica/Pasmo cards from connections they know, or spares that people were selling online.
- Using a mobile payment system (e.g., Apple Pay) which does not require a physical Suica/Pasmo card
- Paying cash for tickets for every train station destination (quite inconvenient)
- Using the Suica/Pasmo cards that the students themselves or their relatives have kept from past trips to Japan
- Buying a one-month commuter Suica/Pasmo pass between the shortest distance and then topping up on it (You can keep using the pass card even after the pass expires)

Taxi

A taxi ride from the west side of Shonandai Station to Keio University will take approximately 10 to 15 minutes. Taxi fare is approximately 1,200 to 2,000 JPY.

To hail a taxi, go to a taxi stand in front of train stations or flag one down at a location where it is safe for it to stop. It is easy to find taxis on the street in Tokyo, but not in the SFC area. Please call a taxi by phone when there is no taxi stand around you.

When you board a taxi, note that the vehicle's left rear door opens and closes remotely by the driver. You are not supposed to open or close the door by yourself.

Train/Subway

Shonandai station is an express stop on the **Odakyu Enoshima Line**. It's also the terminus of both the **Yokohama Subway Blue Line** and **Sagami Railway (Sotetsu) Izumino Line**.

Student Commuter Pass

Students can purchase a student commuter pass (*tsugaku teiki-ken*), which allows students to take unlimited rides between the station nearest to their residence and the station nearest to the campus.

Your student commuter pass can be issued on the Suica/Pasmo you have.

You must pay an additional fare when traveling outside the specified route and only the person registered on the card may use this pass.

One, three, and six-month passes are available (the longer the period the higher the discount, but the higher risk when you lose it).

The student commuter passes can only be issued for a single route and for the least expensive route.

If your current address is different from the one registered with the university, please update your home address from keio.jp.

Bicycle

Commuting by bicycle is another choice if you do not like to wait in a long queue for a bus, or board an overcrowded bus. Using a bicycle, you do not need to worry about being late for your class.

From Shonandai to SFC, it is 3km of a hilly road for 20 minutes of a bicycle ride.

Bicycle Registration

It is mandatory to register your bicycle.

Crime rate is low in Japan but it doesn't apply to bicycles and umbrellas. They are often stolen. There may be cases that you will be stopped by police when riding your bicycle at night. You don't need to panic because you can easily prove the bicycle belongs to you with your registration number on your bicycle.

When you buy a new bicycle from a local shop, shop staff will offer you a registration. Fill out the form and pay 600 JPY. A sticker to prove your registration will be put on your bike by a shop staff. This is issued by your local police and its expiration date differs by each prefecture. (7 years for Kanagawa prefecture)

If you purchase a bicycle online, visit the nearest bicycle shop or a police box for the registration. You need to bring your ID card, your bicycle certificate (it will be sent to you with the bicycle) and your bicycle.

For the bicycle given by your friend or somebody else, you need to register the bicycle at the nearest bicycle shop. Besides your ID and bicycle, you need to bring a "**Bicycle transfer certificate**" written by the former owner of the bicycle.

Bicycle Insurance

Kanagawa prefecture requires all bicycle riders to enroll in insurance (such as bicycle casualty insurance) to ensure that they can pay for any damage or injury to others if the rider is involved in a cycling accident. Please check the terms of the insurance plan you are enrolled in and make the necessary adjustments or purchase cycling insurance. It costs approximately 3,000 JPY for a year.

*If the bicycle rider is under legal age (18 years old), the parent is required to enroll in insurance for the rider.

*Any accidents during commuting to/from the university are covered by Gakkenbai. (Please see 7-3 for details)

Parking at SFC

Students who commute to SFC by bicycle must park in the parking lots located across from the security office in the North Gate. It is free of charge and notification to the university is not required. Please use a double-lock to prevent bicycle theft. Keio University shall not be responsible for any loss, damages, and troubles in the parking space. Abandoned bicycles will be removed, so please look after your own bicycle.

8-5 Part-Time Jobs

Many international students wish to work part-time in order to pay their tuition or living expenses. However, under the status of residence of "Student," which is given to all international students, they are originally allowed to reside in Japan only for the purpose of studying at school. Therefore, if anyone residing in Japan with the status of "Student" wishes to take a paid part-time job, the person is required to obtain official permission called "Permit to Engage in Activity other than that Permitted by the Status of Residence Previously Granted" from the nearest regional immigration bureau.

Information on how to obtain a permit to work from the immigration bureau can be found in the chapter "**5-2 Work Permission for Part-Time Jobs**".

Limit to Work Hours

With this permit, students are allowed to work part-time for up to 28 hours per week (up to 8 hours per day during summer, winter, and spring holidays). However, students are not allowed to have a job prohibited by the Immigration Law, such as jobs at places like bars where servers are seated at the customer's table to serve, pachinko parlors, etc. It is prohibited to work there even as kitchen staff. If there are any violations of the conditions of the part-time work permit, you will be punished by a fine or deported.

Paid Internships

If you intend to pursue a paid internship, it is necessary to obtain a permit from the Immigration Bureau to engage in part-time work. The permitted working hours are the same as for part-time jobs. Before you start your internship, it is your responsibility to check in advance about the duration of the internship and whether you will be compensated. If you will not receive compensation for the internship, you do not need to apply for this permit.

How to Find a Part-Time Job

How easy it will be to find a part-time job largely depends on your language ability and what kind of job you wish to do. If you have some proficiency in Japanese, it can be easy to find a job as a translator, or at a restaurant or in another position with customer services, which offers the opportunity to improve your Japanese and get a sense of Japanese work ethic. Language cafes or places frequently visited by foreign customers often hire English-speaking staff without requiring Japanese language skills.

Another popular part-time job is language teaching, either private lessons or helping out at elementary schools.

You can also ask faculty members if they are looking for a student assistant (S.A.) or teaching assistant (T.A.) or if they could introduce you to companies they are working with, in order to find a part-time job. T.A. and S.A. assist faculty members in holding classes smoothly by assisting with class preparation, providing in-class guidance with experiments and exercises, providing advice to students regarding course contents, and so on. If you already have a particular job in mind, you can directly bring your CV to the place you want to work at and ask whether they have an open position.

Please also use the websites listed in the left column to search for available jobs.

Disputes at Part-Time Jobs

Kanagawa Labor Bureau offers free consultation services in English. Consultation services cover work related issues such as labor contracts, conditions, paid holidays, and working hours.

8-6 Food

Besides fine-dining restaurants and cafes, you can eat out at casual-dining restaurants including fast-food chain restaurants.

Fast food chain restaurants have wide varieties from *ramen* to hamburgers, from *gyudon* to conveyor belt *sushi*.

Family restaurants are popular among students as well.

Also, you can buy small snacks such as lunch boxes, sandwiches, and *onigiri* at any convenience store.

Supermarkets

The cheapest way of having meals is always cooking by yourself. Buying food at supermarkets is economical. Wholesale markets (業務スーパー) are known to be cheaper than ordinary supermarkets.

Don't forget to bring your shopping bag as they charge you for plastic bags.

Common tip: Fresh and cooked items are often marked down by 10-70% near the closing time of supermarkets.

Vegetarian Food

Vegetarian food in Japan can be difficult to find.

Most of the restaurants do not have vegetarian menus unless you choose vegetarian restaurants. Restaurant staff will happily remove meat from your plates if you ask.

Please use the vocabulary on the right to ask staff to adjust your plate. Try using a search engine for vegan and vegetarian restaurants as well.

Halal Food

Halal food might be much harder to find than vegetarian food. The concept of “Halal food” itself is not very popular among ordinary Japanese people.

A wholesale market (業務スーパー) near Shonandai station sells some Halal foods.

Keio SFC Islam kenkyu labo and Kanagawa prefecture made “Muslim friendly restaurant guidebook Kanagawa”. Please download the PDF version for your use. It contains information about places for prayer as well.

Also, using search engines for halal food would be useful.

Vegetarian / Halal Food at SFC

We have a Halal food section inside the Co-op store on campus.

Also, our on-campus dining facilities, such as Tablier and Ladybird, can prepare halal meals with prior notice. Several vegetarian menus are available at the co-op cafeteria.

8-7 Garbage

Garbage (*gomi*) disposal is carried out at the municipal level. Please check with your landlord or your dormitory manager for the local garbage rules.

You are expected to observe all rules and regulations concerning garbage disposal and recycling in your city.

Roughly speaking, there are three broad categories of garbage for disposal purposes:

- Combustible trash (kitchen and other food garbage, etc)
- Non-combustible trash (metals, glass, porcelain, rubber products, etc)
- Recyclable trash (plastic, paper, bins, cans, magazines, etc.)

Items in each category are collected separately on a designated day. Usually, you are supposed to put garbage in certain space to avoid crows and cats.

For Fujisawa city, you need to use designated garbage bags for combustible and non-combustible trash. (e.g. 400 JPY for a roll of ten sheets of 20-liter bags). You can buy bags from convenience stores, drug stores, and supermarkets within the town.

For oversized garbage (*sodai gomi*), like furniture, bedding, and home appliances, municipalities have different ways of collecting it. In some places, certain days are set for collecting oversized garbage. In other places, you need to notify the municipal administrative office in advance, and then dispose of the garbage on the assigned day. There are also some places that require you to pay collection fees in advance. Collection fees may vary according to the size and kind of garbage. Therefore, please confirm with the municipality or sanitation office on how to dispose of oversized garbage. Please note that the following seven appliances are not considered oversized garbage:

air conditioners, televisions, refrigerators, freezers, washing machines, clothes dryers, and computers.

8-8 Avoiding Troubles

騒音(*sou-on*) noise

Noise Caution

Even if you have your own space in your apartment, it does not mean you can do anything anytime in your place.

The walls and floors of some apartments are very thin and you can hear the sound of TVs and other noises from neighbors and vice versa.

Try to avoid using a washing machine and/or vacuum cleaner, watching TV very loud, jumping, or playing musical instruments from 8:00 pm to 9:00 am the following day.

When playing online games using headphones, you tend to raise your voice without realizing it. Please refrain from playing games with voice chat functions during the midnight or early morning.

When your neighbors make noise, try not to contact them directly. Make your complaints via your landlord to be anonymous. And when you receive a complaint, please try to reduce noise as you may not be able to continue the apartment contract for the next contract period.

Garbage

Trash-related issues could easily become a cause of trouble with your neighbors. To establish a good relationship with your neighbors, you should follow the local rules for disposal.

Safety

Japan is known as relatively a safe country, however, the crime against young women is not few. Always make sure your door is locked. Do not sleep with your windows open. You can also put the cover on the door scope.

Theft on campus

Unfortunately, theft is a reality of campus life. Do not leave your wallet and computers unattended. Also, it is not uncommon for bicycles in the parking area to be stolen.

Visitors

Do not open your door to strangers!

Visitors with no appointments are mostly door-to-door-sales.

Safety check: Sometimes, for example, a visitor tells you they are from "a direction of the fire station" and would like to check the fire system in your apartment. Those safety checks should be informed by the landlord or a posted document beforehand. Do not let the stranger come inside your room.

NHK representative

By the Broadcast Law of Japan (1950), all Japanese residents regardless of nationality who own a television set and/or a mobile phone which can receive the TV signal are required to enter into a Broadcast Receiving Contract with NHK and pay the broadcast receiving fee. NHK representative will visit your place to ask for the payment. However, students with low income or students supported by their parents are to be exempted from the payment from October 2023. For details, please refer to the NHK website (Japanese language only).

Salesperson from Internet provider companies

They will ask you to switch your internet service provider, but sometimes your landlord might have made a contract with a single provider for a whole apartment building. If you would like to switch your internet service provider, you may need to ask the landlord first for the change.

Delivery

You can ask a delivery person to leave parcels outside of the door.

Public transportations

Avoid loud conversation and/or listening to music loud in public transportation.

Alcohol and Tobacco

The legal age for drinking alcohol and smoking is 20 years old.

Drugs

The use or possession of illegal drugs is strictly prohibited by law.

Ethical use of PC

Ethical use of computers is required in your daily life, especially when you use SNS. For example, uploading a photo of you or your friends who are underage with a glass of beer to SNS may cause a serious issue.

Drones

Flying drones without permission is prohibited by law.

Cults

There are lots of cult groups in Japan that recruit university students. They may contact you near the campus or even on campus. They target new students who are lonely without families or friends in the new environment. Those religious recruiters pretend to be students. They will come to you and ask if you are interested in "a self-improvement group" or "an international students information exchange group". They even disguise themselves as members of one of Keio University student groups.

Please be aware that there are lots of dangerous cult groups targeting new students around April and October. If you are unsure about the invitations from someone you don't know well, ask senior students at school or faculty members. Do not give them your personal information.

Involving in special fraud

“Special fraud” is a crime in which suspects phone elderly victims and pretend to be police officers, victims' family members, etc. to have victims transfer cash to the suspects' bank account. In other cases, a suspect visits a victim's house after such a phone call and directly receives the victim's cash and/or cash cards.

Those criminals recruit university students as fraud group members.

You might be offered a well-paid job by friends or people who pretend to be university students.

Once you get involved in a crime, you are a criminal regardless of your situation. Even if you didn't know it was a crime or you were just threatened, you will still be arrested and will be expelled from Keio University.

Fraud targeting at Chinese students

Recently, there have been many cases that people claiming to be from the Chinese Public Security Bureau, Chinese embassies, Japanese Immigration Office, or other overseas public institutions who told Chinese students that they were involved in a crime and would be arrested, or that they needed to pay a security deposit to avoid arrest. Some of the cases involved fraudulent payments of a large sum of money as a deposit.

In some cases, the scammers not only present their personal information (passport information, etc.) to make the recipients believe that it is from a public institution but also send a document with an official seal made to look like it was issued by a public institution.

If you receive a suspicious phone call pretending to be from an overseas public institution, please do not make a decision on your own, but rather consult with the university or the nearest police station.

Never give out your personal information or transfer or give money to them.

8-10 Student Organizations

Keio University has a rich community that revolves around over 470 official student organizations – 68 of which are specific to SFC – across its six campuses. The Keio Arts and Culture Federation complements these with 90 organizations that encourage students to expand their cultural literacy and social awareness. With clubs encompassing countless interests, from contemporary and traditional dance and music, religion and Japanese cultural arts, to debate and philanthropy, students are guaranteed to find a community where they can make lifelong friends.

Clubs and Circles

The word “circle” is often used to refer to students’ clubs. “Circles” are also student clubs, but often require less of a time commitment than so-called “clubs.” To join a club or a circle, you can either go to their information events held at the beginning of the spring semester or contact them directly by searching for their website / Facebook pages.

For sports at Keio University, the Keio University Athletics Association organizes the university’s intercollegiate athletic teams, and provides them with coaching staff, medical aids, and training facilities. The league includes over 40 groups.

The Waseda-Keio Games

Keio University and Waseda University have long been friendly yet fierce rivals in academic and athletic pursuits. The Waseda-Keio baseball games in spring and fall are so popular with students, alumni, and the wider public that they are broadcast on TV.

泥棒(*doroboo*)

If you have been robbed or had valuable belongings stolen, dial **110**.
No area code is necessary.

Tell the operator your name, address, the location of the accident or incident, and what happened slowly and clearly.

Or contact a nearby *koban*. *Koban*, police boxes, are located in most towns/cities and are commonly located near train stations.

You will be asked to submit a theft report. Clearly state your name and address and report the incident.

If it happens on campus, report it to the SFC Academic Affairs Office.
During night hours, contact the Security Office on campus.

If your bank or credit card gets stolen, notify the bank or credit card company immediately so they can prevent any unauthorized transactions. It is important to keep your PIN number separate from these cards and not to share it with others.

Vehicle Accidents

交通事故(*kotsu jiko*)
vehicle accidents

If you happen to be involved in a vehicle accident, contact the police immediately by dialing **110**. If anyone has been injured or wounded, dial **119** for an ambulance. Even if you believe you only have a minor injury, some injuries may become more serious with time. Do not try to diagnose the injury yourself and tell the people around you that you are fine.

Consult a doctor as soon as possible, as the onset of pain may be delayed or there may be other complications later on.

Do not forget to inform the Student Life Section at SFC about the accident.

Fire

火事(*kaji*) fire

In the event of a fire, first alert the people around you by yelling "*Kaji da! (Fire!)*", then immediately call the fire department by dialing **119**.

Since the number is the same for both fire engines and ambulances, you must clearly state that there is a fire "*Kaji desu!*", and then tell them your address.

Always speak clearly and slowly when making an emergency call, since not all operators understand English.

Japanese Phrases for Emergency Calls

The following Japanese phrases may be helpful:

- ☐ Your ID (Residence card, student ID card, passport, etc.)
- ☐ Cash (~20,000 JPY)

9-2 Natural Disasters

Classes may be cancelled in cases where public transport services are suspended due to large-scale accidents or natural disasters, such as typhoon, heavy rain/snow, or earthquakes. An announcement will be made to all students about the cancellation of classes through the **Keio University Student Website** and/or **keio.jp** email.

地震 (*jishin*)

earthquake

Earthquakes

As you may know, the country of Japan is prone to many earthquakes (*jishin*). Please be sure to be physically and mentally prepared when one occurs.

SFC Disaster Prevention Guide

https://www.sfc.keio.ac.jp/emergency/disaster_management.html

If you are indoors: Strong tremors will usually continue for about a minute. Do not panic and stay inside your home rather than rushing outside.

1) Protect yourself: Quickly duck under a sturdy table or desk to protect yourself from falling objects. If there is nothing to hide under, protect your head with a cushion or a backpack.

2) Secure a safe exit: Doors and windows may become inaccessible due to distortion of the frames from tremors. When a strong earthquake occurs, go open our front door or a nearby window to secure a way out.

3) Put out any flames: Turn off the stove or any appliances that may use gas after the shaking subsides to prevent fires.

4) Be aware of aftershocks: After a big earthquake, aftershocks (*yoshin*) may occur so be cautious around furniture such as drawers, bookshelves, and refrigerators. Turn on TV or radio (if you have one), listen to the Emergency Broadcast System, and follow instructions.

If you are outdoors: Stay away from narrow streets, garden walls, cliffs, and riverbanks. Beware of falling objects if you are near any buildings.

Safety Tips

(a free app provides
disaster information)

<https://www.rcsc.co.jp/safety-tips-en>

Protect your head (by holding something like a backpack over your head and quickly flee to a safe area.

Daily Countermeasures

Neighbor relations

Having simple everyday face-to-face relationships with neighbors can help you in the event of a disaster.

Prevent the fall of furniture

We strongly recommend you secure furniture to the wall using anti-tipping equipment such as braces which fit between the ceiling and the top of shelving units to prevent furniture from tipping over. (You may need to ask for approval from the owner of your apartment regarding some equipment.)

Find your closest evacuation facility and/or wide-area evacuation site

Make sure you know the location of the emergency exit of your apartment along with public evacuation areas and shelters (*hinan basho*--usually parks or schoolyards) closest to your home and university.

避難場所(*hinan basho*)

evacuation areas and
shelters

An evacuation map will be given to you when you register your address at the city/ward office.

The gymnasium (Gamma Building) is designated as the main evacuation site at SFC. The second evacuation site is Akihadai Culture and Gymnastics Hall (秋葉台文化体育館) which is approx. 2 km from SFC.

Evacuation drill

Try to attend any local evacuation drill (It's usually held around early September.

Tsunami

It is true the area surrounding Keio SFC is not included in the tsunami disaster alert area, however, the coastal side of Fujisawa-city is designated as a tsunami disaster alert area.

Move immediately to a safe place as high and as far inland as possible if you feel a strong earthquake if you are on the coast.

RUN!! LEAVE EVERYTHING ELSE BEHIND!

A tsunami may be coming within minutes. Move quickly to higher ground away from the coast, at least ten meters above sea level, or if possible move at least one kilometer inland from all coastal edges.

If you cannot find a way to leave the area, run to the upper story of the closest concrete multi-story building or tsunami evacuation towers built along the beach line.

When going to the beach, take a quick check of the evacuation buildings along the coastline beforehand. For example, the rooftop of Enoshima Aquarium is an evacuation point.

Some utility poles in coastal areas have signboards indicating the height above the sea level.

If you happen to be at Enoshima Island at the time of the earthquake, do not try to go back to the mainland. Run straight to the top of the island.

After fleeing to a safe place, tune in and/or check your emergency sources for further information.

Typhoons (Hurricanes) and Floods

To prepare for a typhoon you should keep yourself informed on its progress and take precautions to minimize any damages that may be caused.

Don't forget to secure or move outdoor items inside. Make sure potted plants and laundry poles are not to be blown by the strong winds.

If the storm becomes severe, move to an area in the house with the least exposure to glass windows.

Make sure not to approach places that you think are dangerous such as beaches, rivers, steep slopes, and underpasses.

J-Alert System (Nationwide Warning System)

J-Alert is a nationwide alert system. If the government of Japan deems that there is an urgency to protect the lives, bodies, and property of the people, such as from a missile threat, it will issue warnings and promptly notify prefectural governors. If it is necessary to evacuate residents, the government will instruct prefectural governors to take evacuation measures. The prefectural governors will then announce warnings and issue evacuation instructions, and communicate information to residents through publicity vehicles of the municipal government.

Based on the Civil Protection Law, the national and local government will also occasionally implement drills for civil protection, such as those concerning evacuation and relief measures. Please access the link for more detailed information on J-ALERT.

In the situation of an armed attack etc., it is critical that information is communicated promptly and convincingly. For this reason, the government has secured multiple means to communicate information.
